

Efecte de IA_SUBST_num sobre P(Regular)

Medianes de la resta de predictors

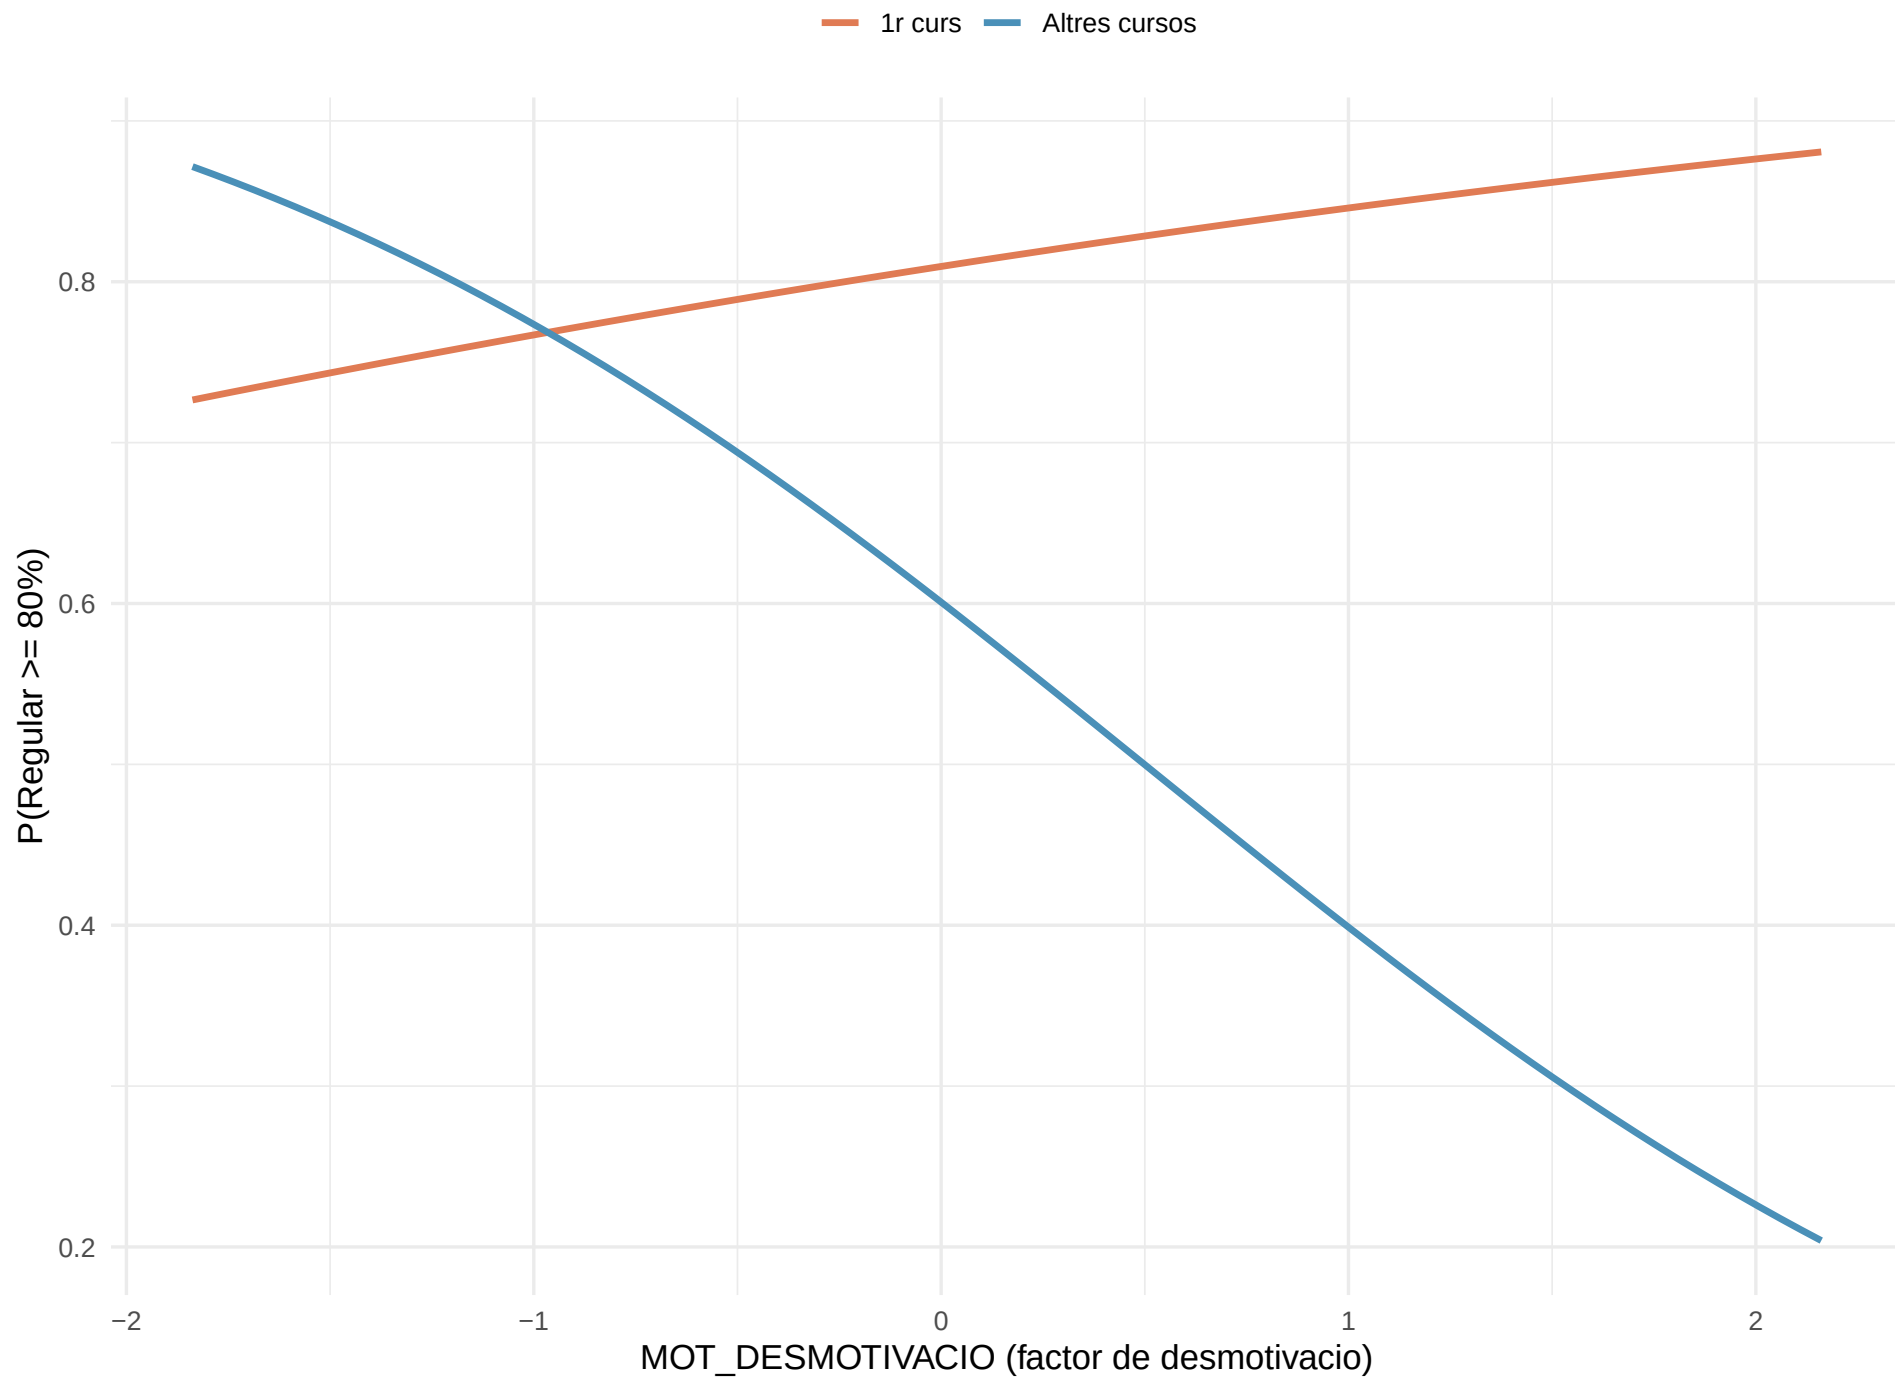

Interaccio IA_SUBST_num x CURS_1R

Probabilitat predicta de Regular ($\geq 80\%$) | resta de predictors a la mediana

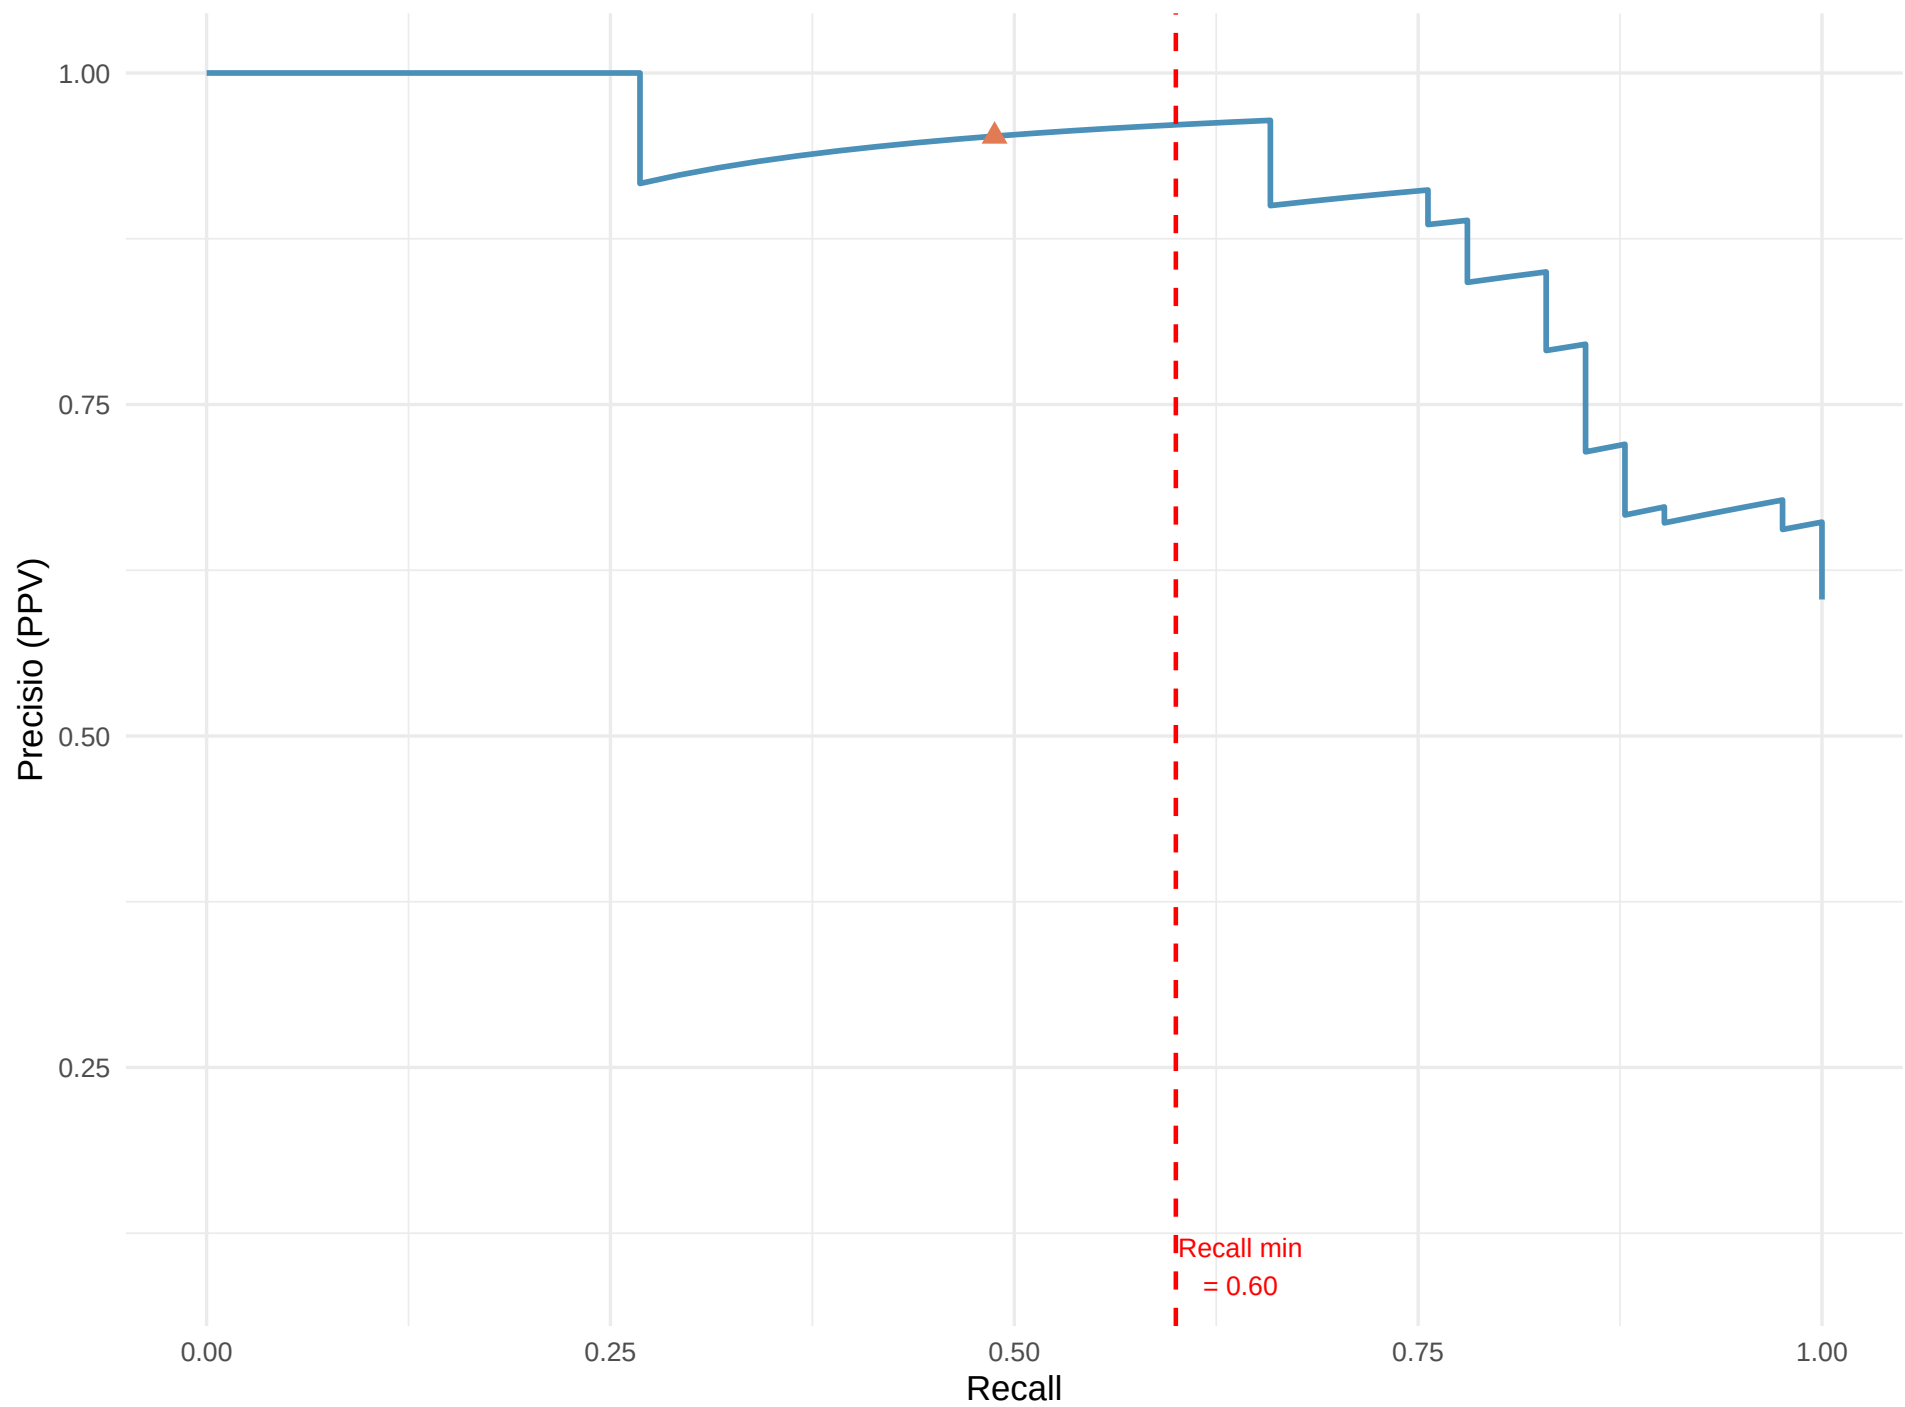

Interaccio MOT_DESMOTIVACIO x CURS_1R

Probabilitat predicta de Regular ($\geq 80\%$) | resta de predictors a la mediana

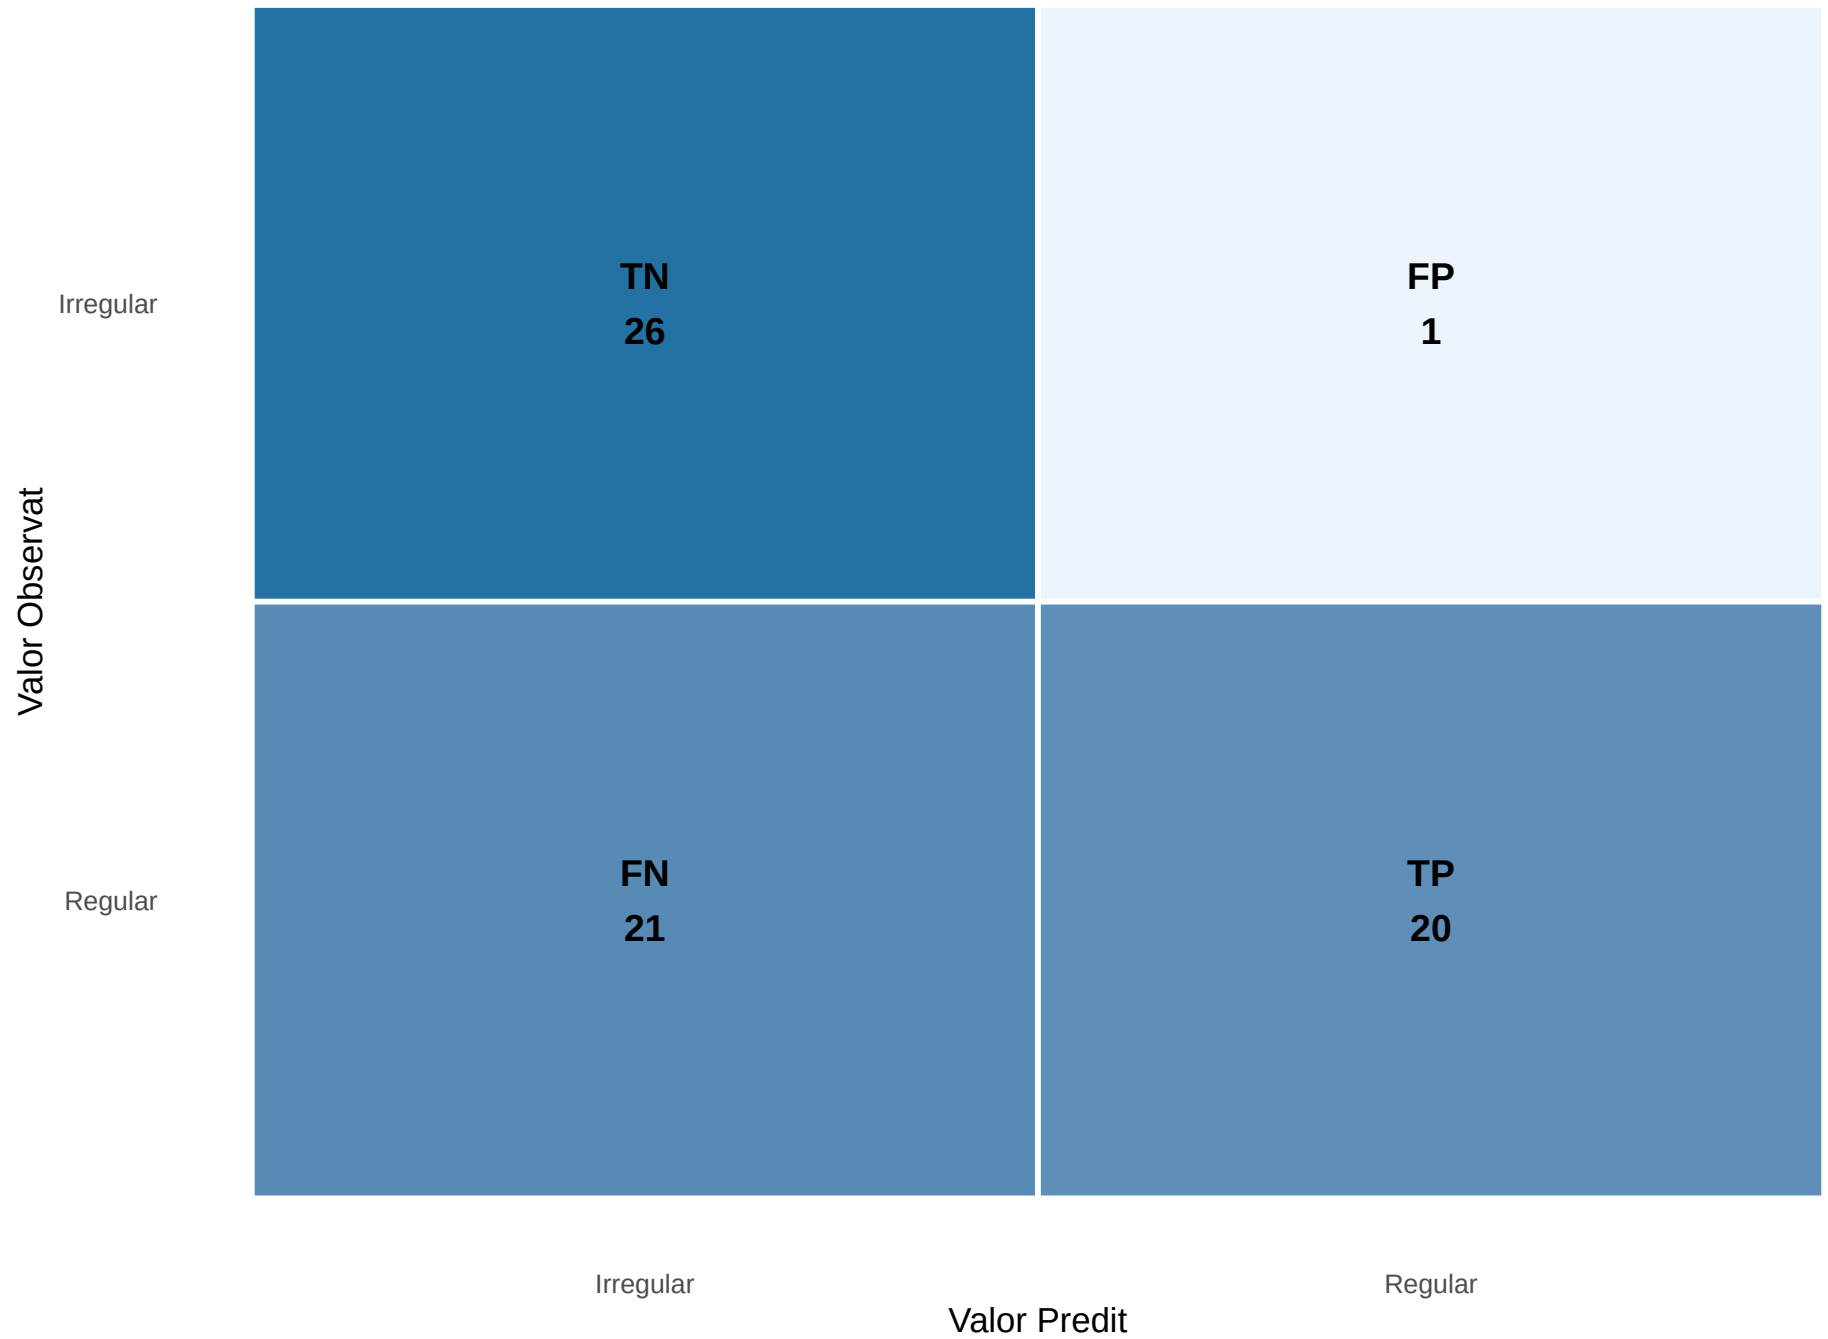

Corba Precisio-Recall — Logit Millorat (test)

AUPRC = 0.9074 | Llindar OOF = 0.6786

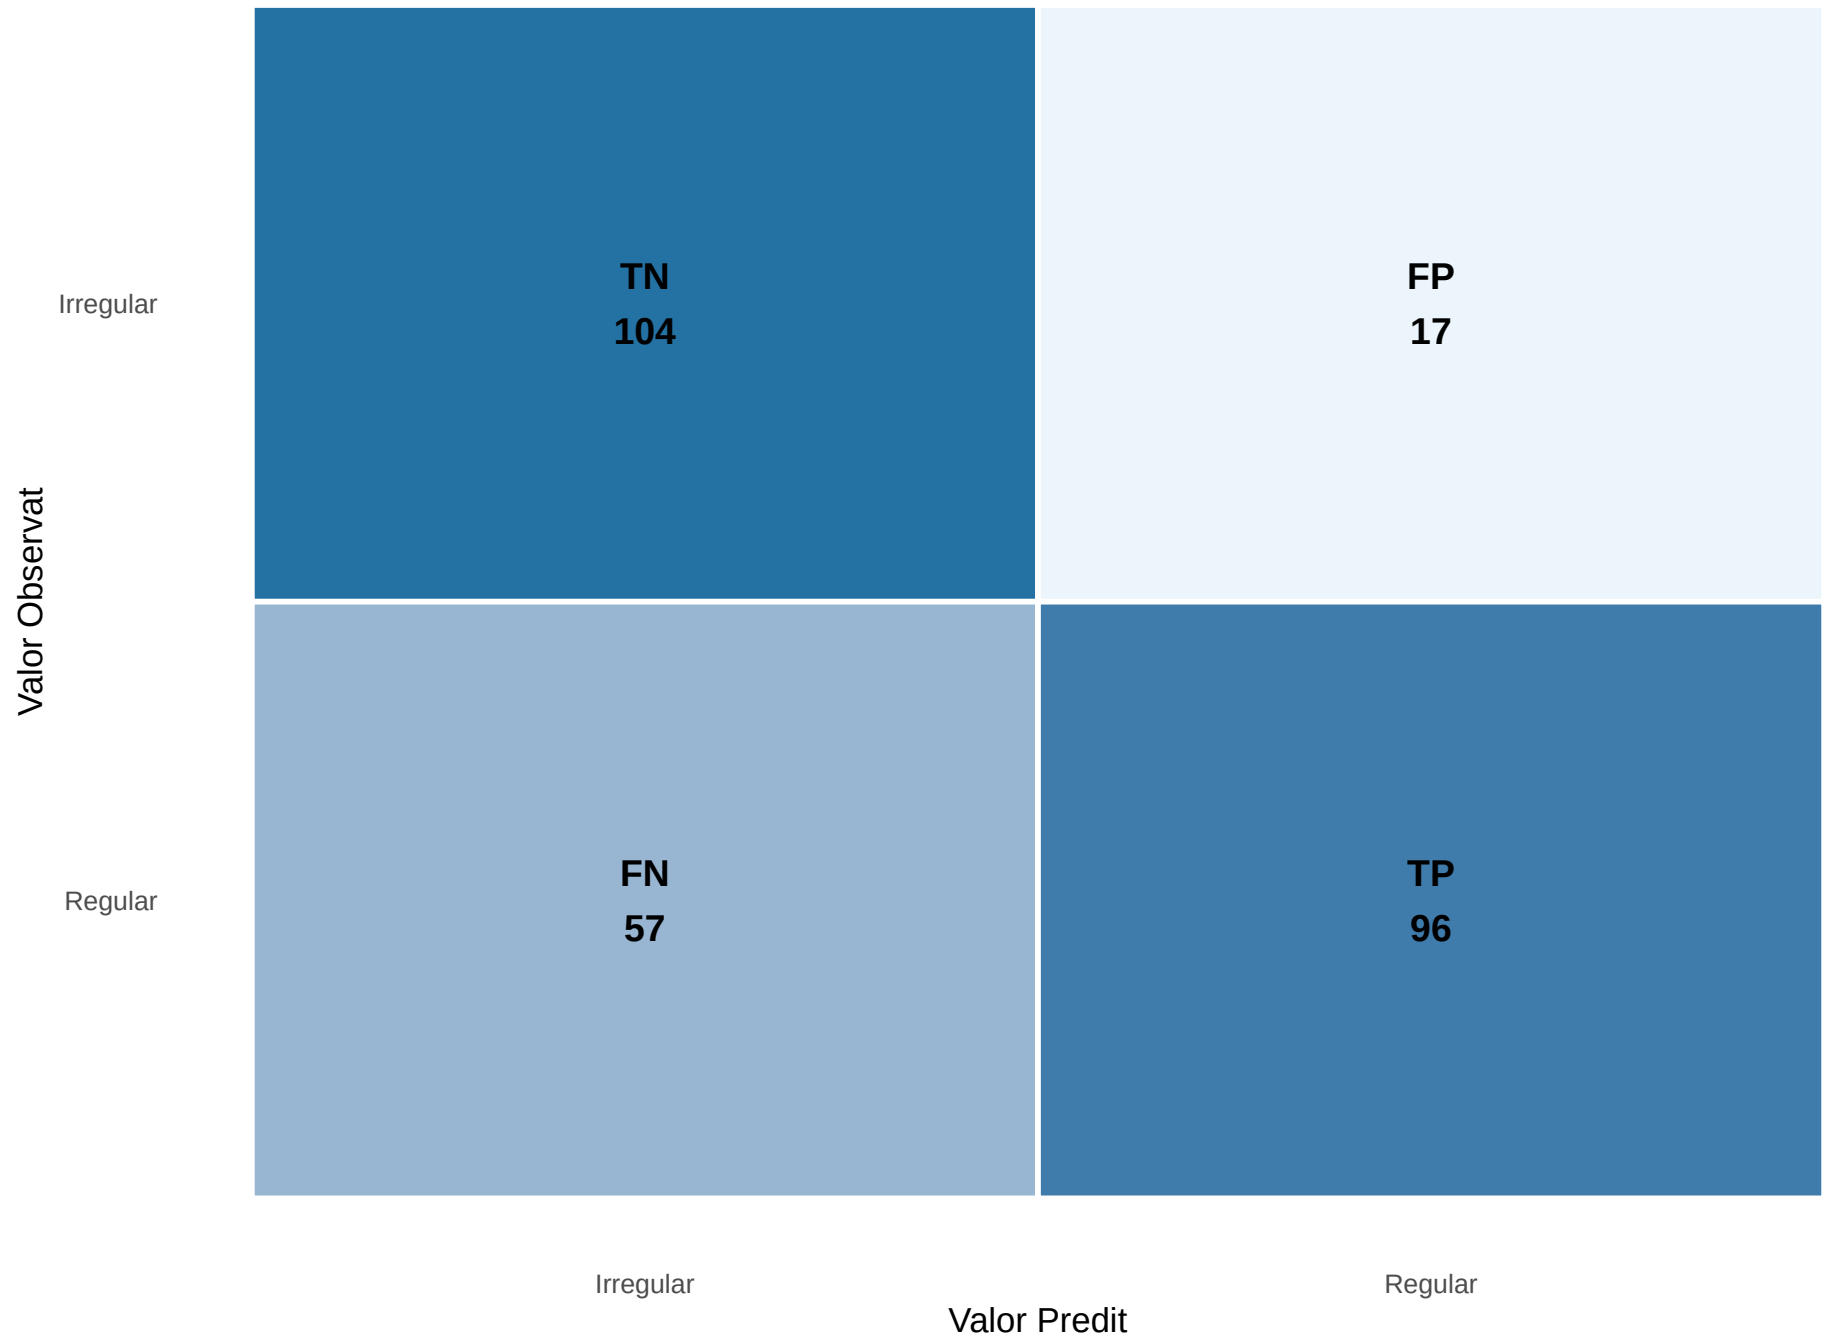

Matriu de confusió — Logit Millorat

Llindar PR = 0.679

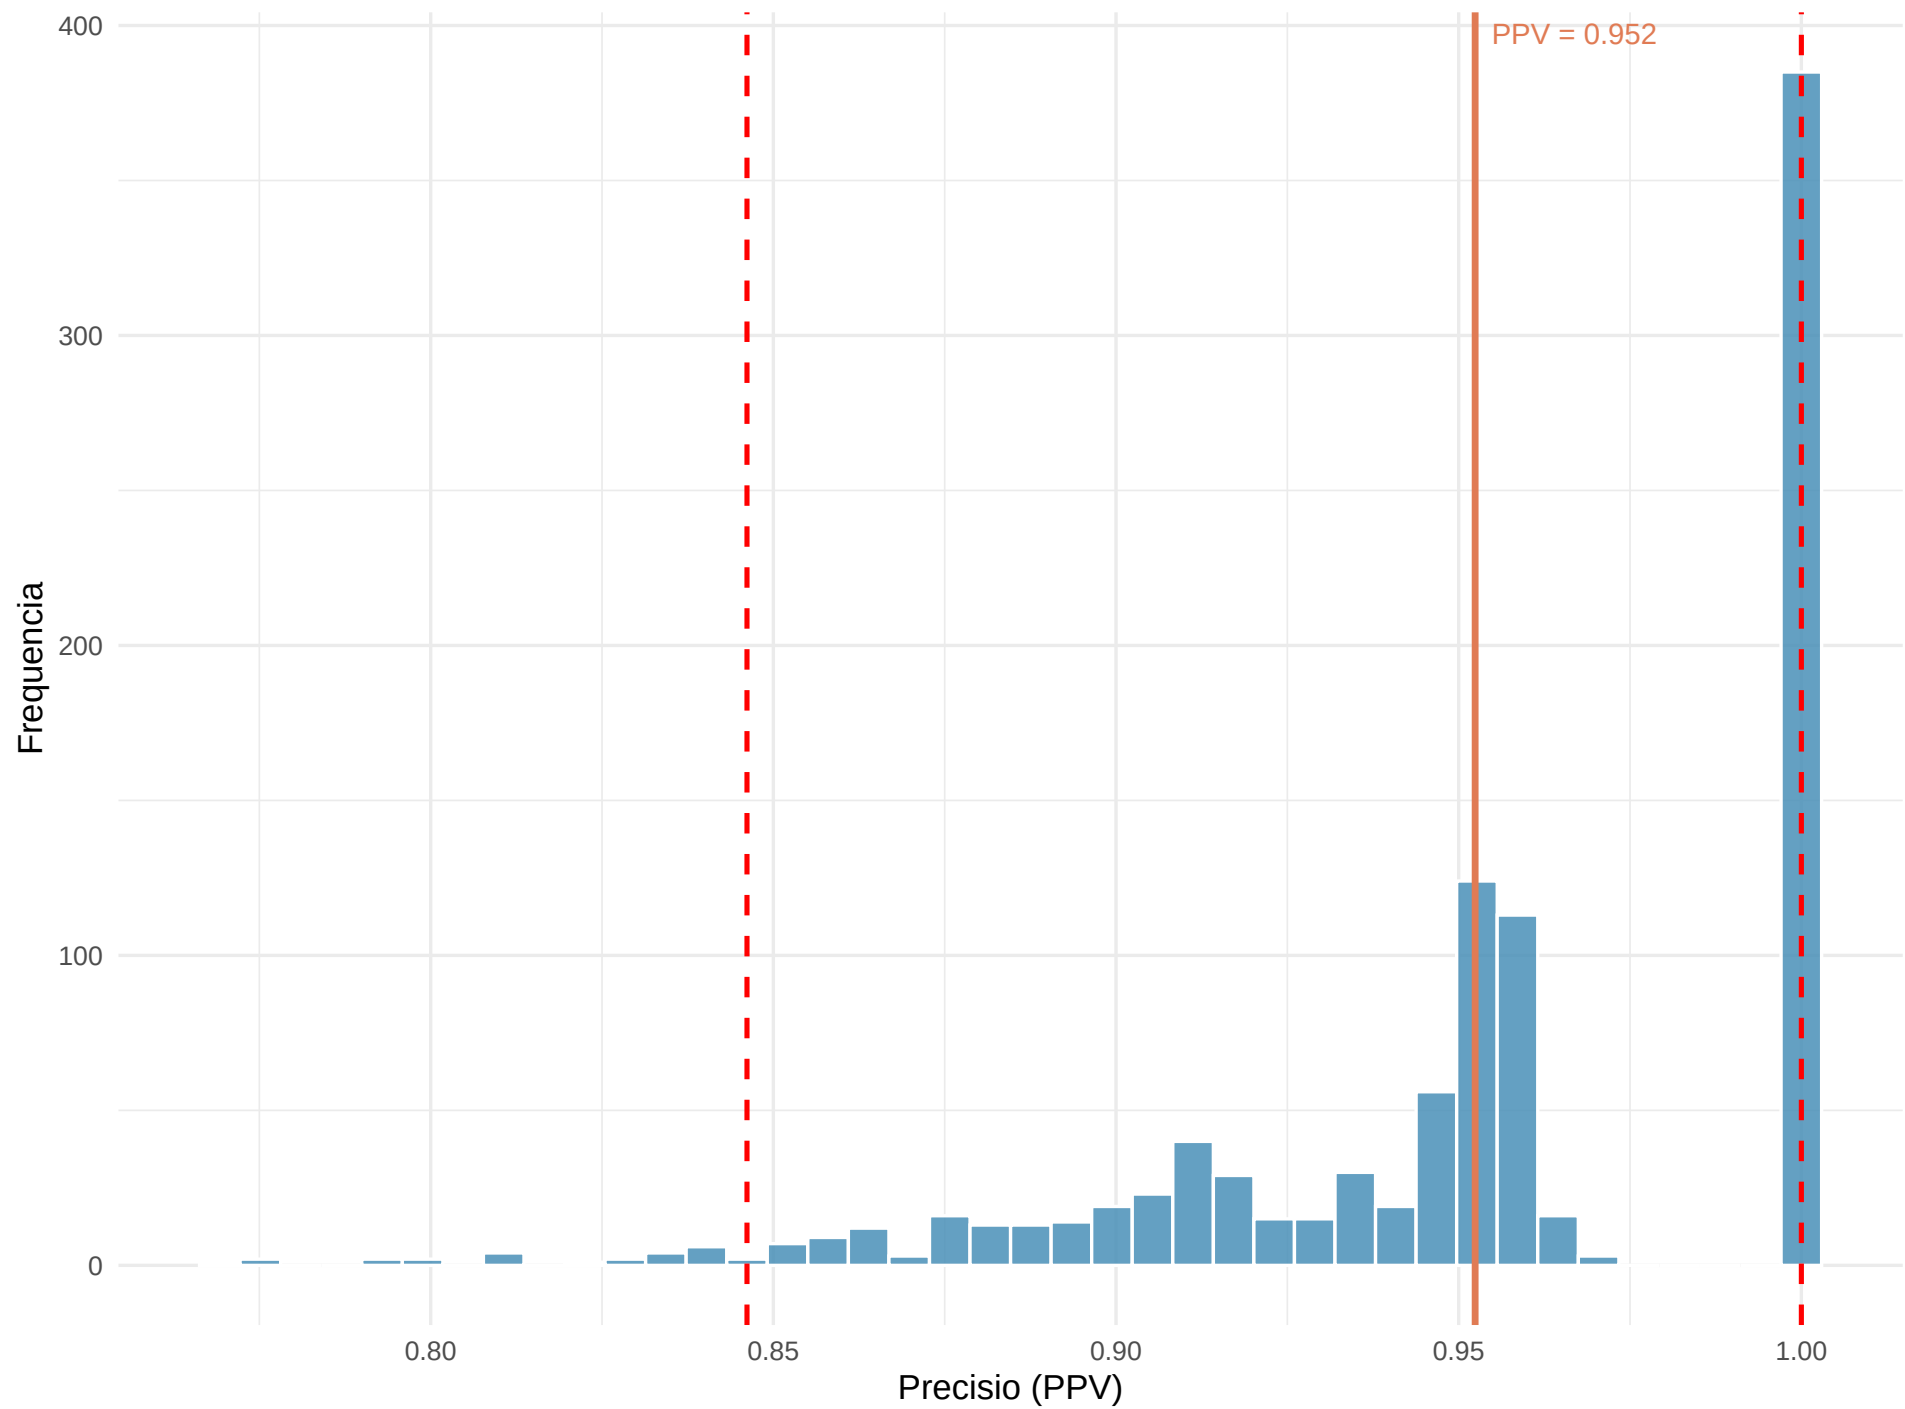

Matriu de confusió — Logit Millorat (train)

Llindar PR = 0.679

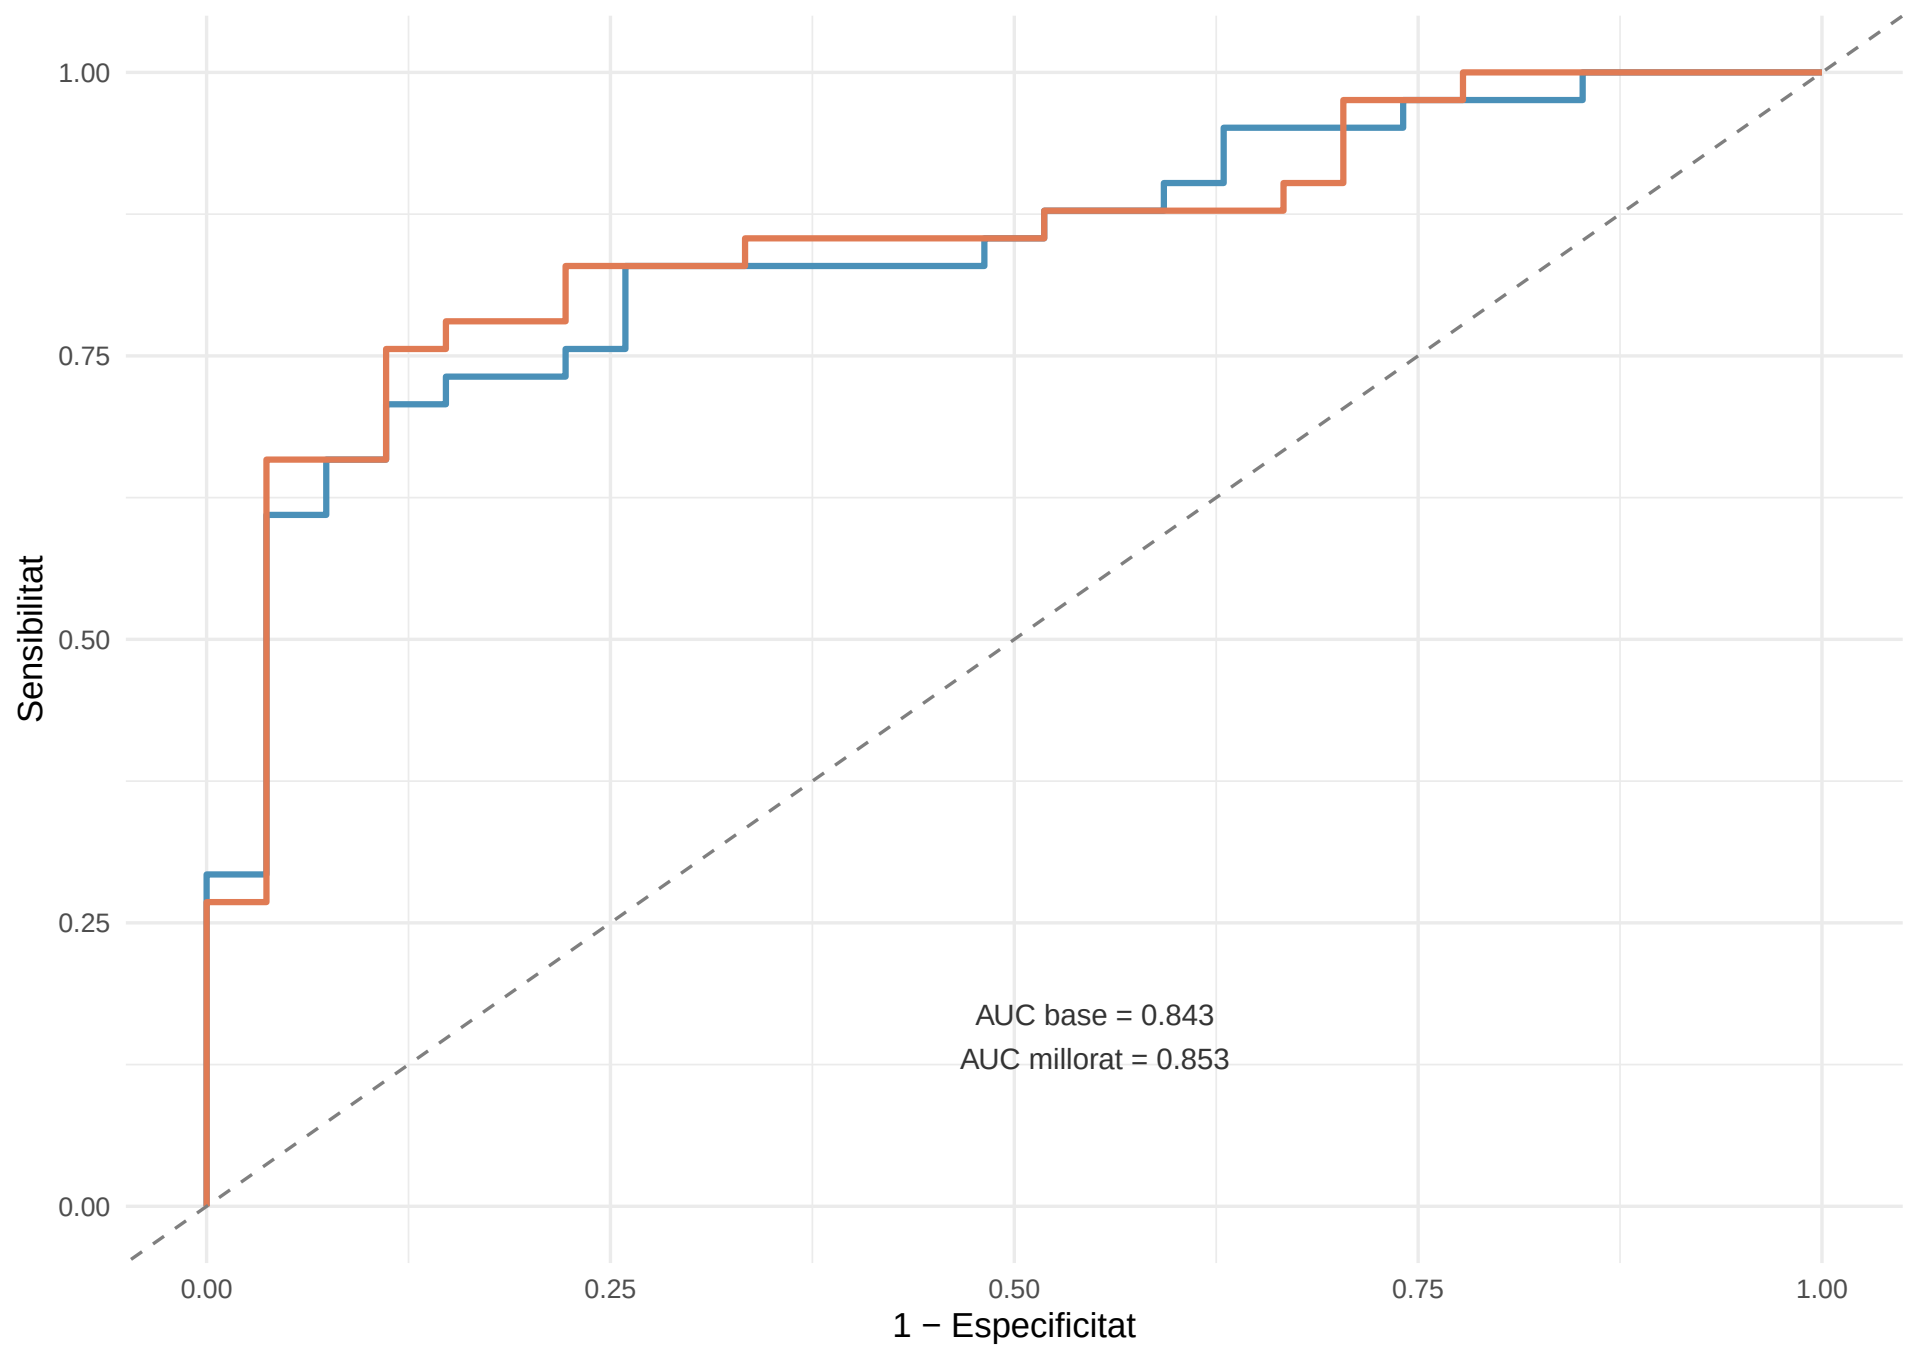

Distribucio Bootstrap Precisio (PPV) — Logit Millorat (test)

IC 95% = [0.8462, 1.0000] | B = 1000

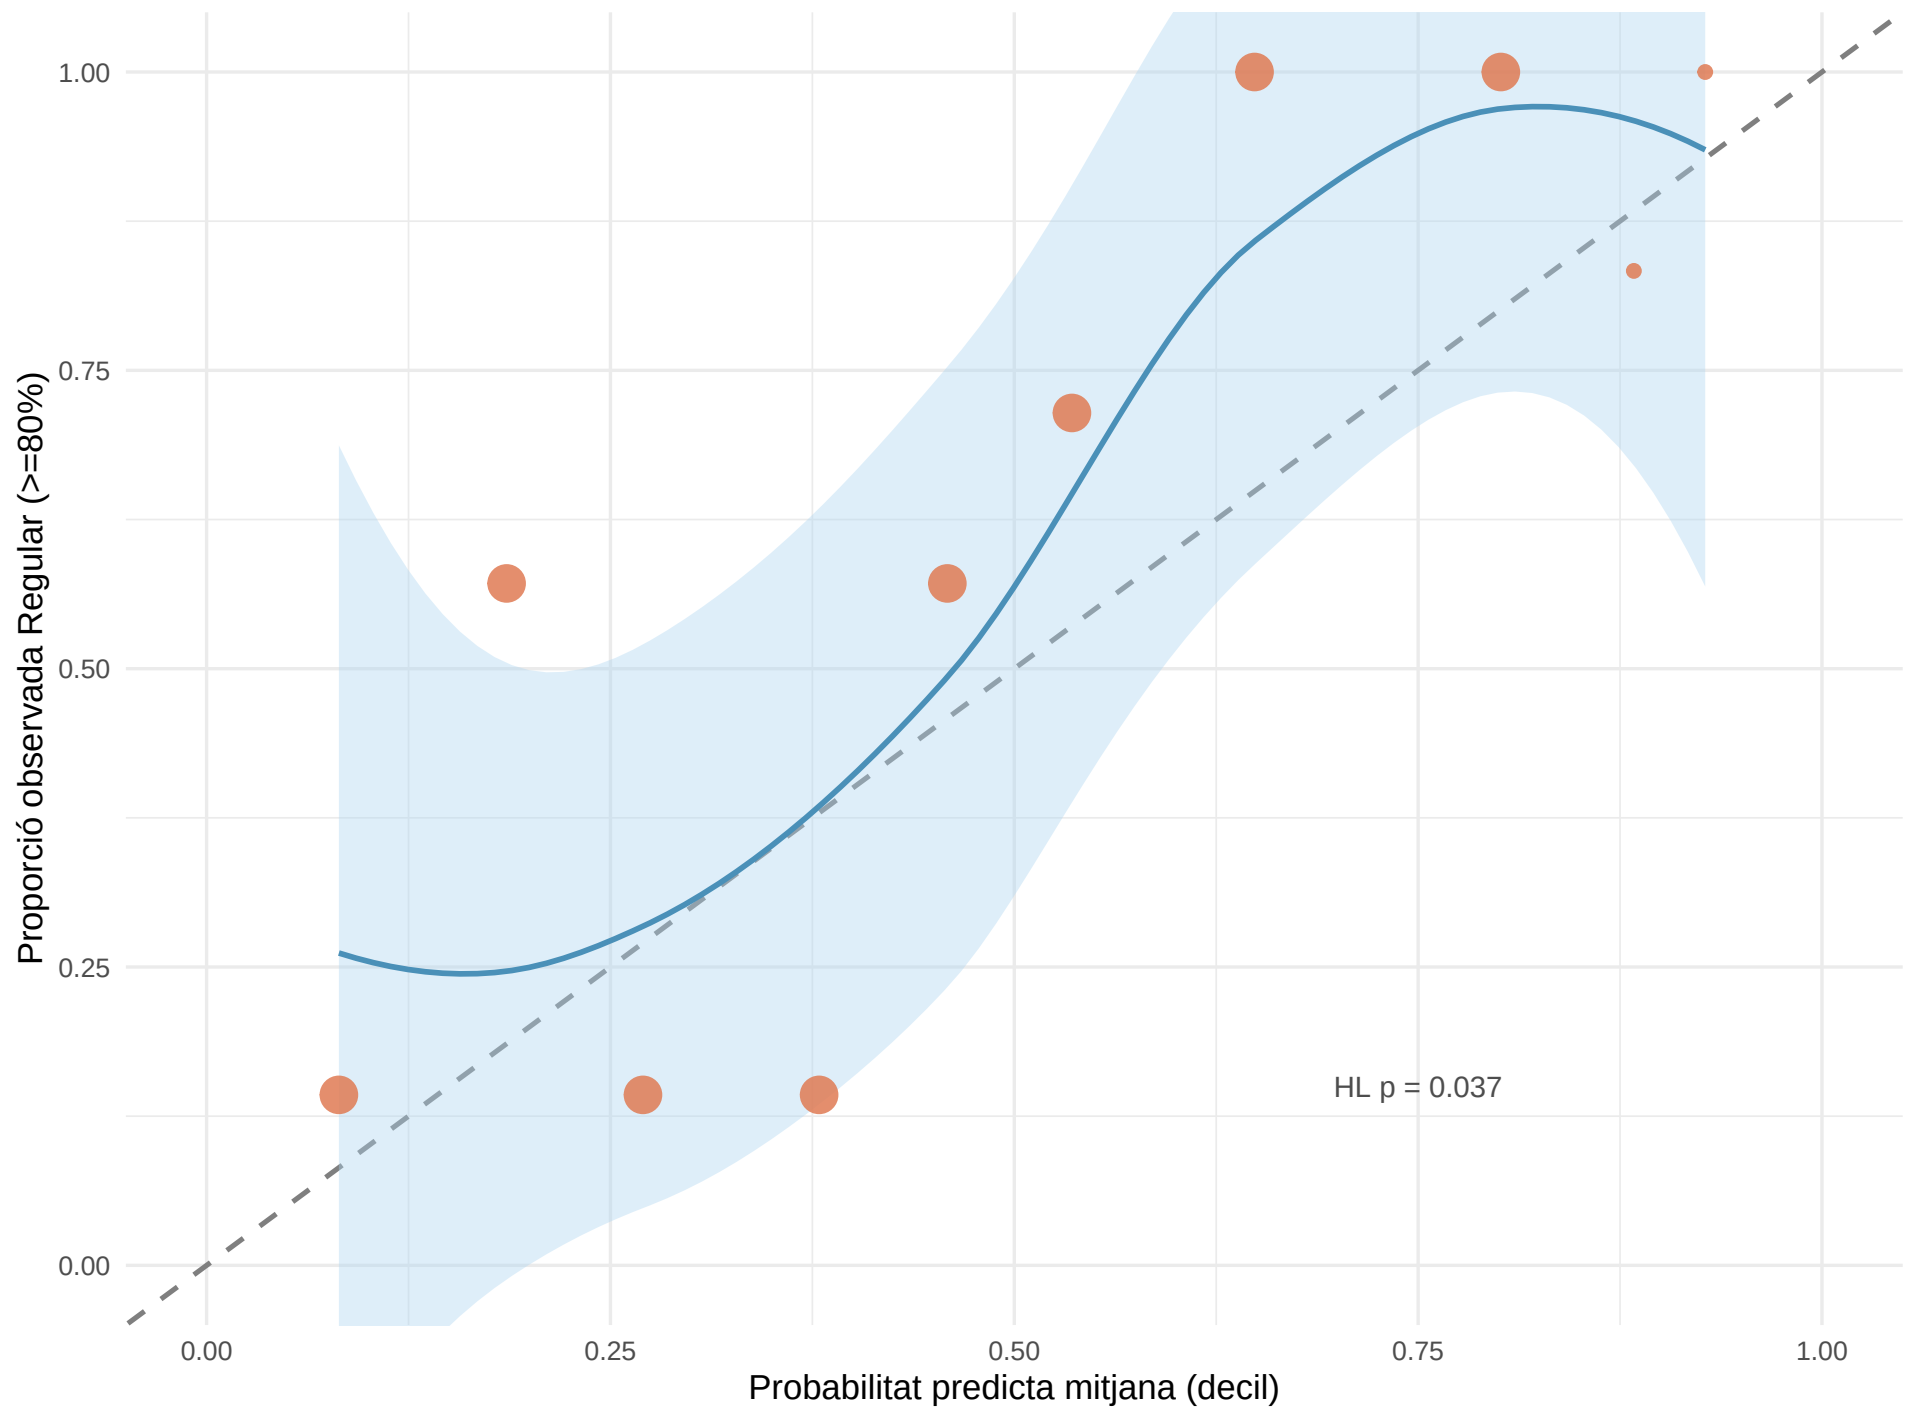

Comparacio ROC: Logit base vs. Logit Millorat

Logit base Logit millorat

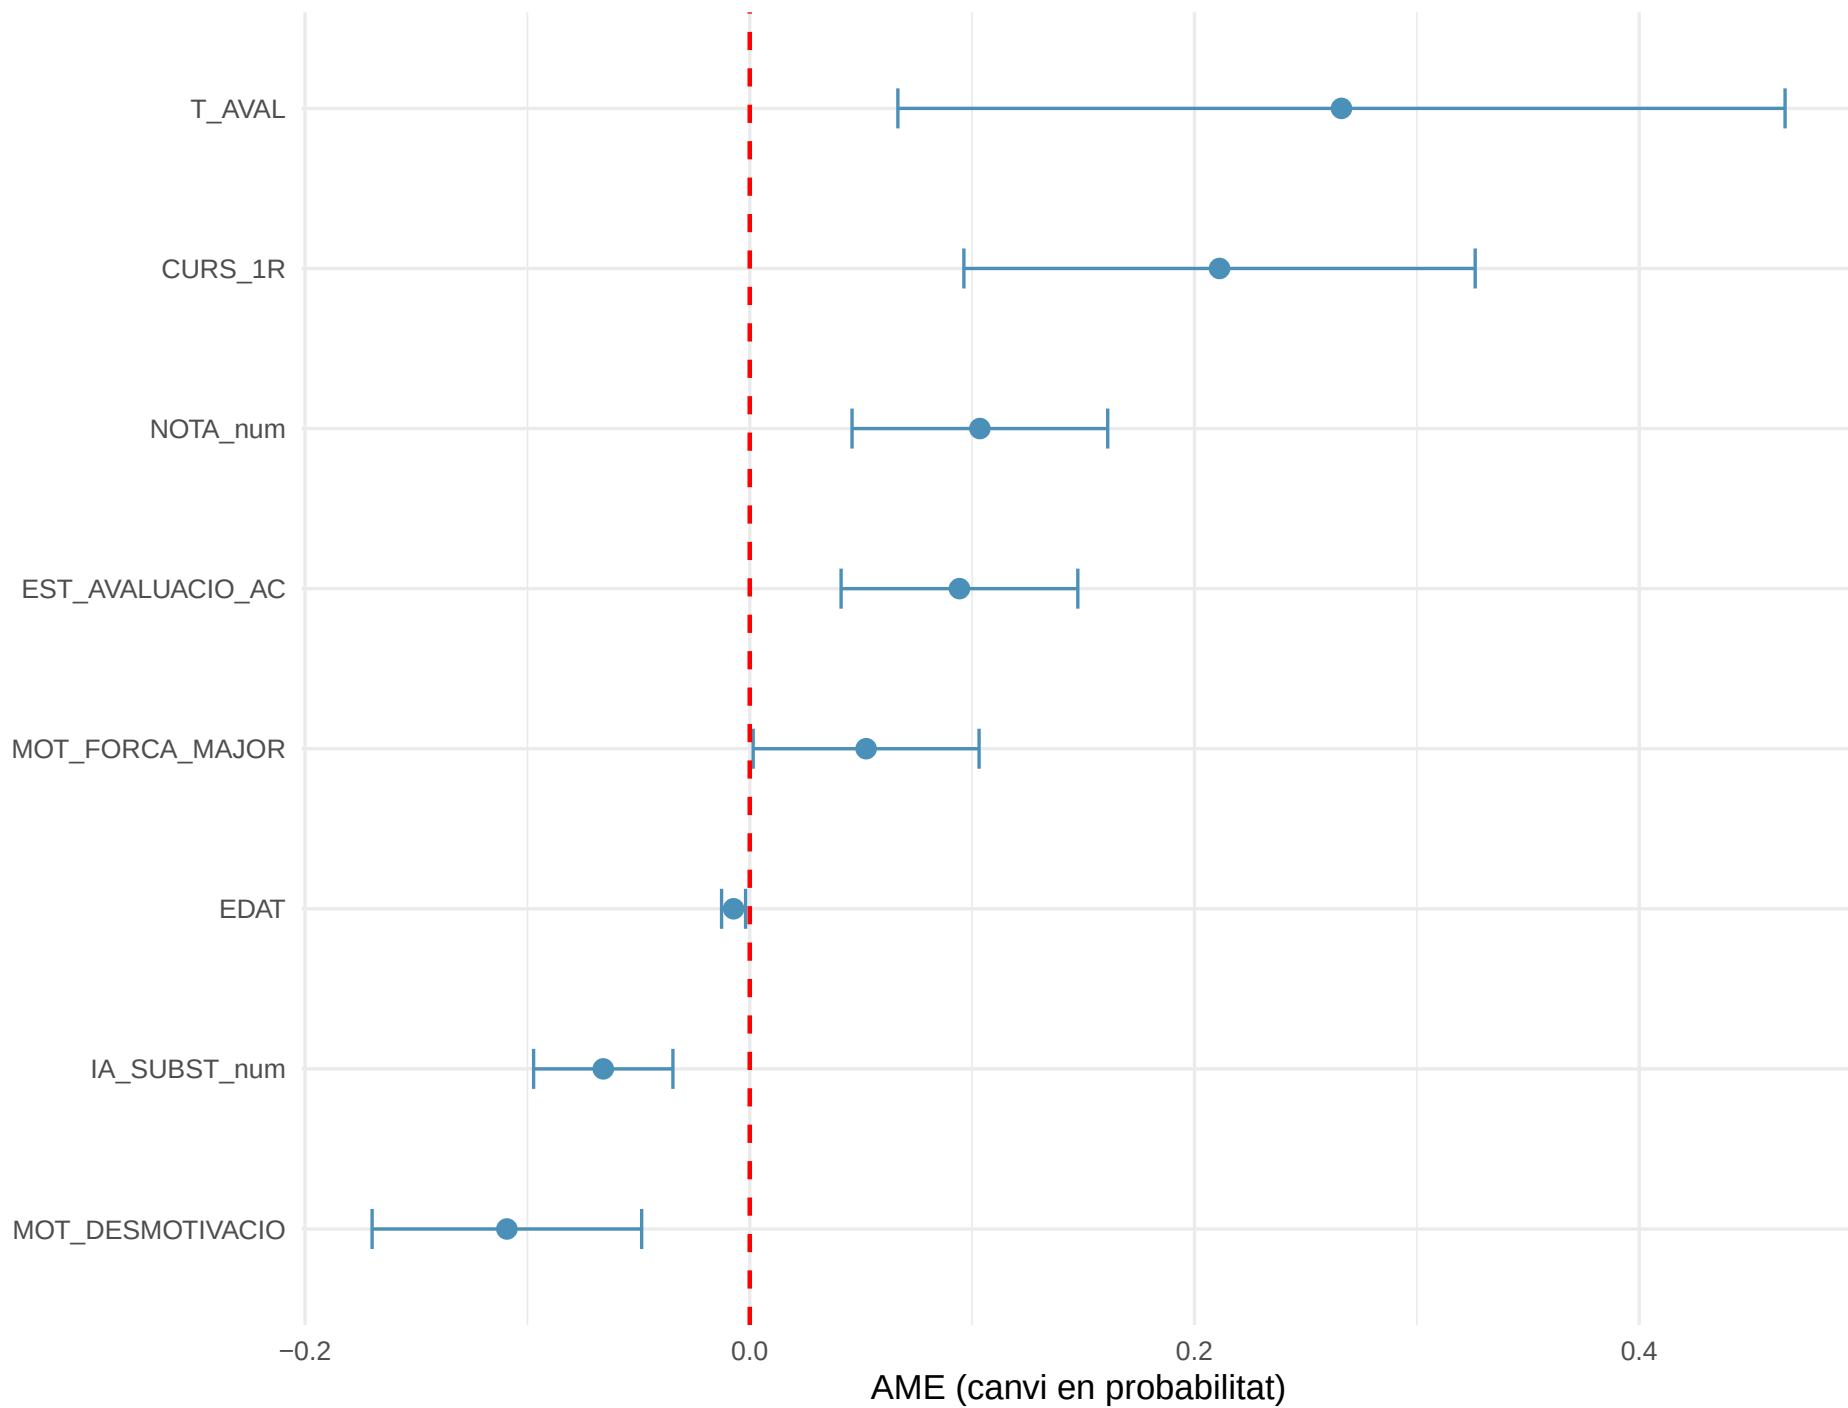

Calibration plot — Logit Millorat (test)

Decils de probabilitat predicta vs. proporció observada

Efectes Marginals Promig (AME) — Logit Millorat

IC 95% (delta method) | variable resposta: P(Regular >= 80%)

Comparacio de models
