

Component + Residual Plots – Model BIC

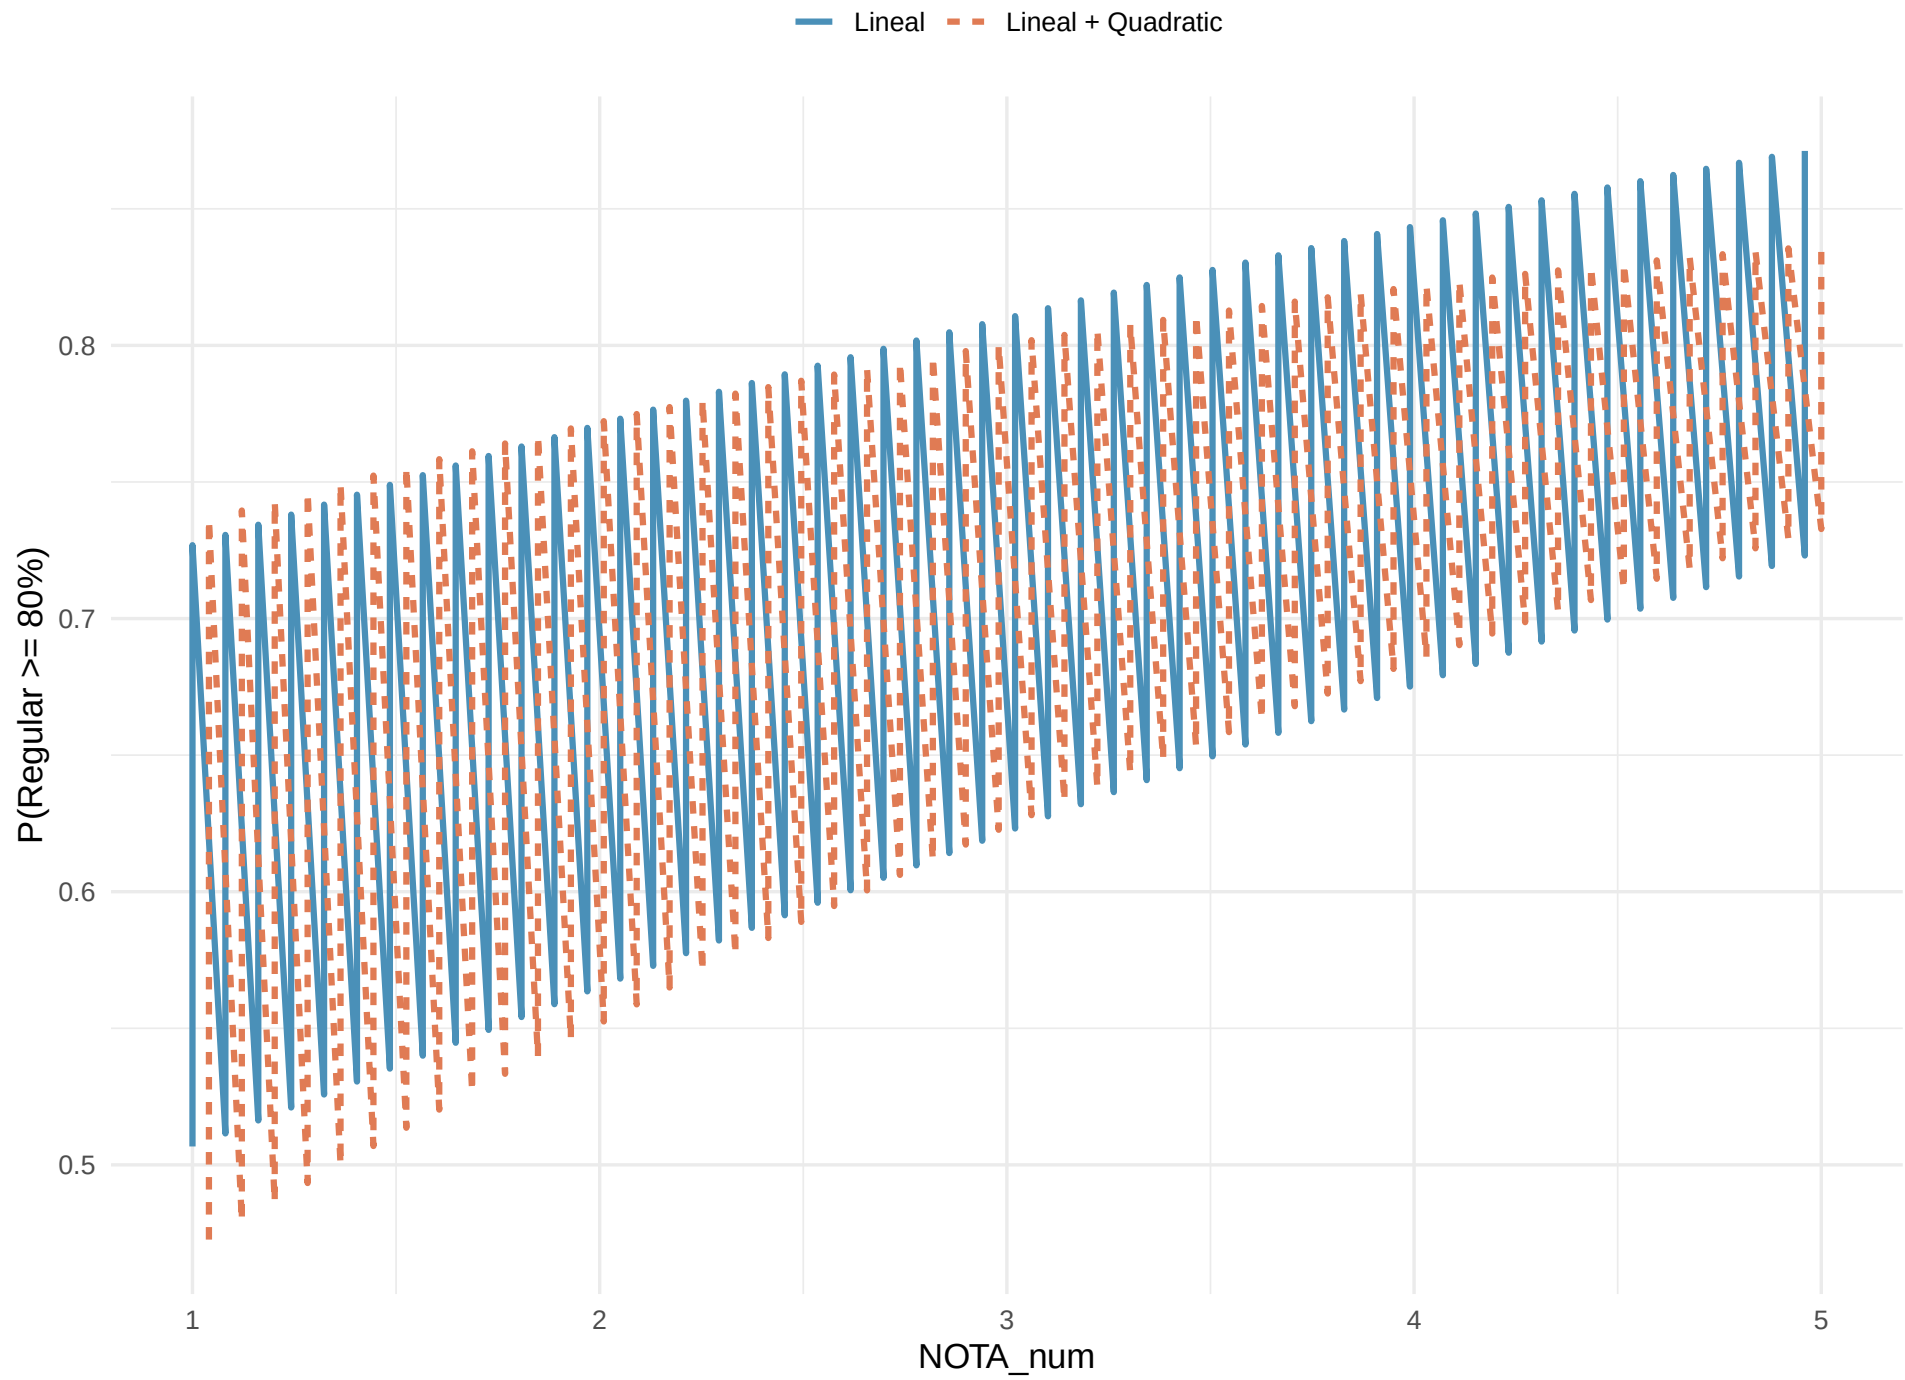

Efecte de IA_SUBST_num sobre P(Regular)

Resta de predictors a la mediana

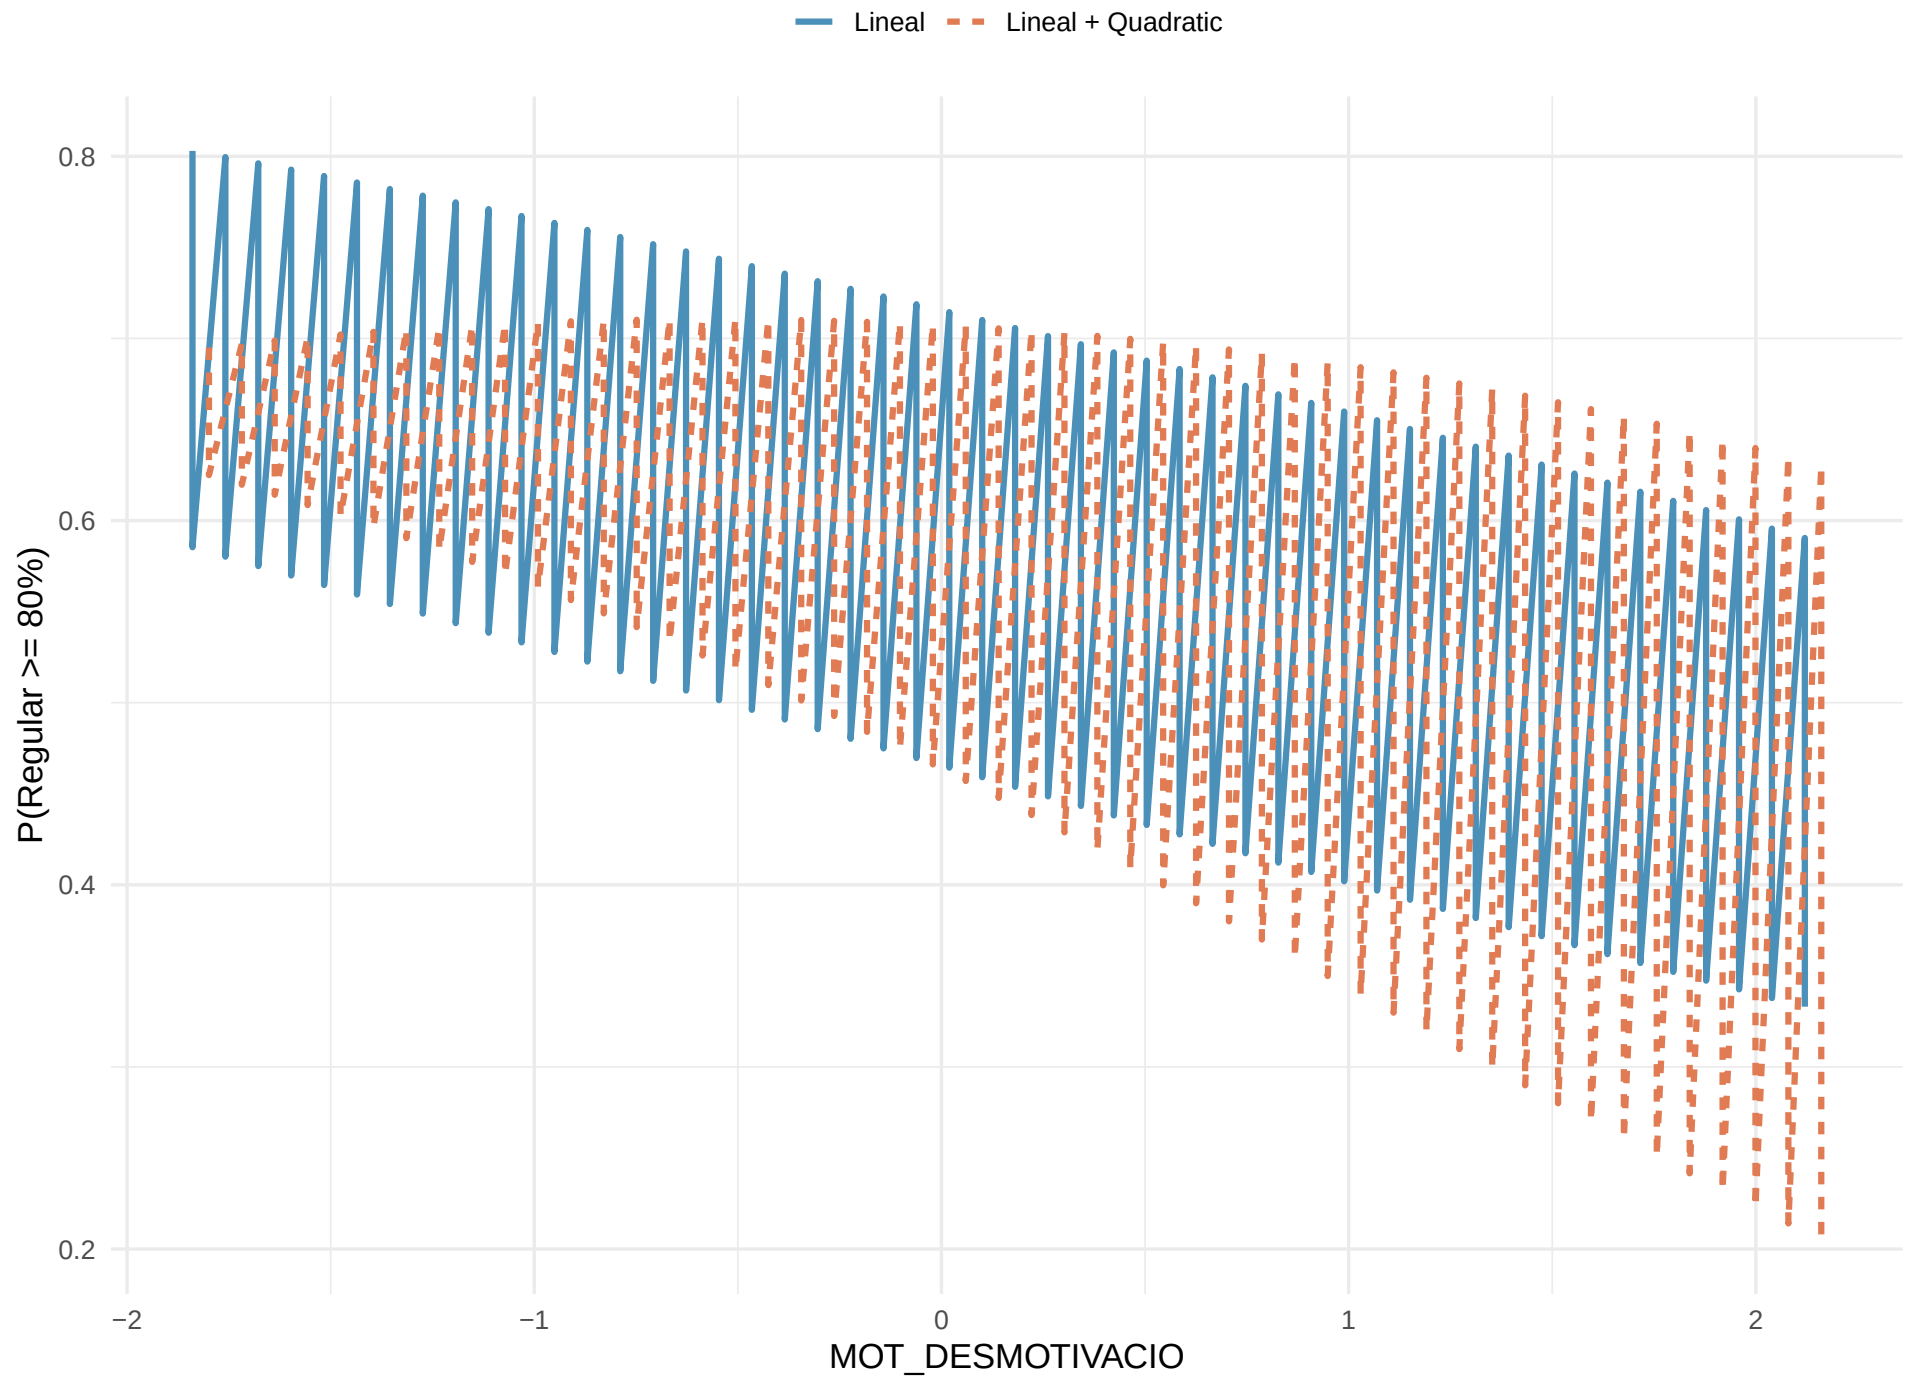

Efecte de NOTA_num sobre P(Regular)

Resta de predictors a la mediana

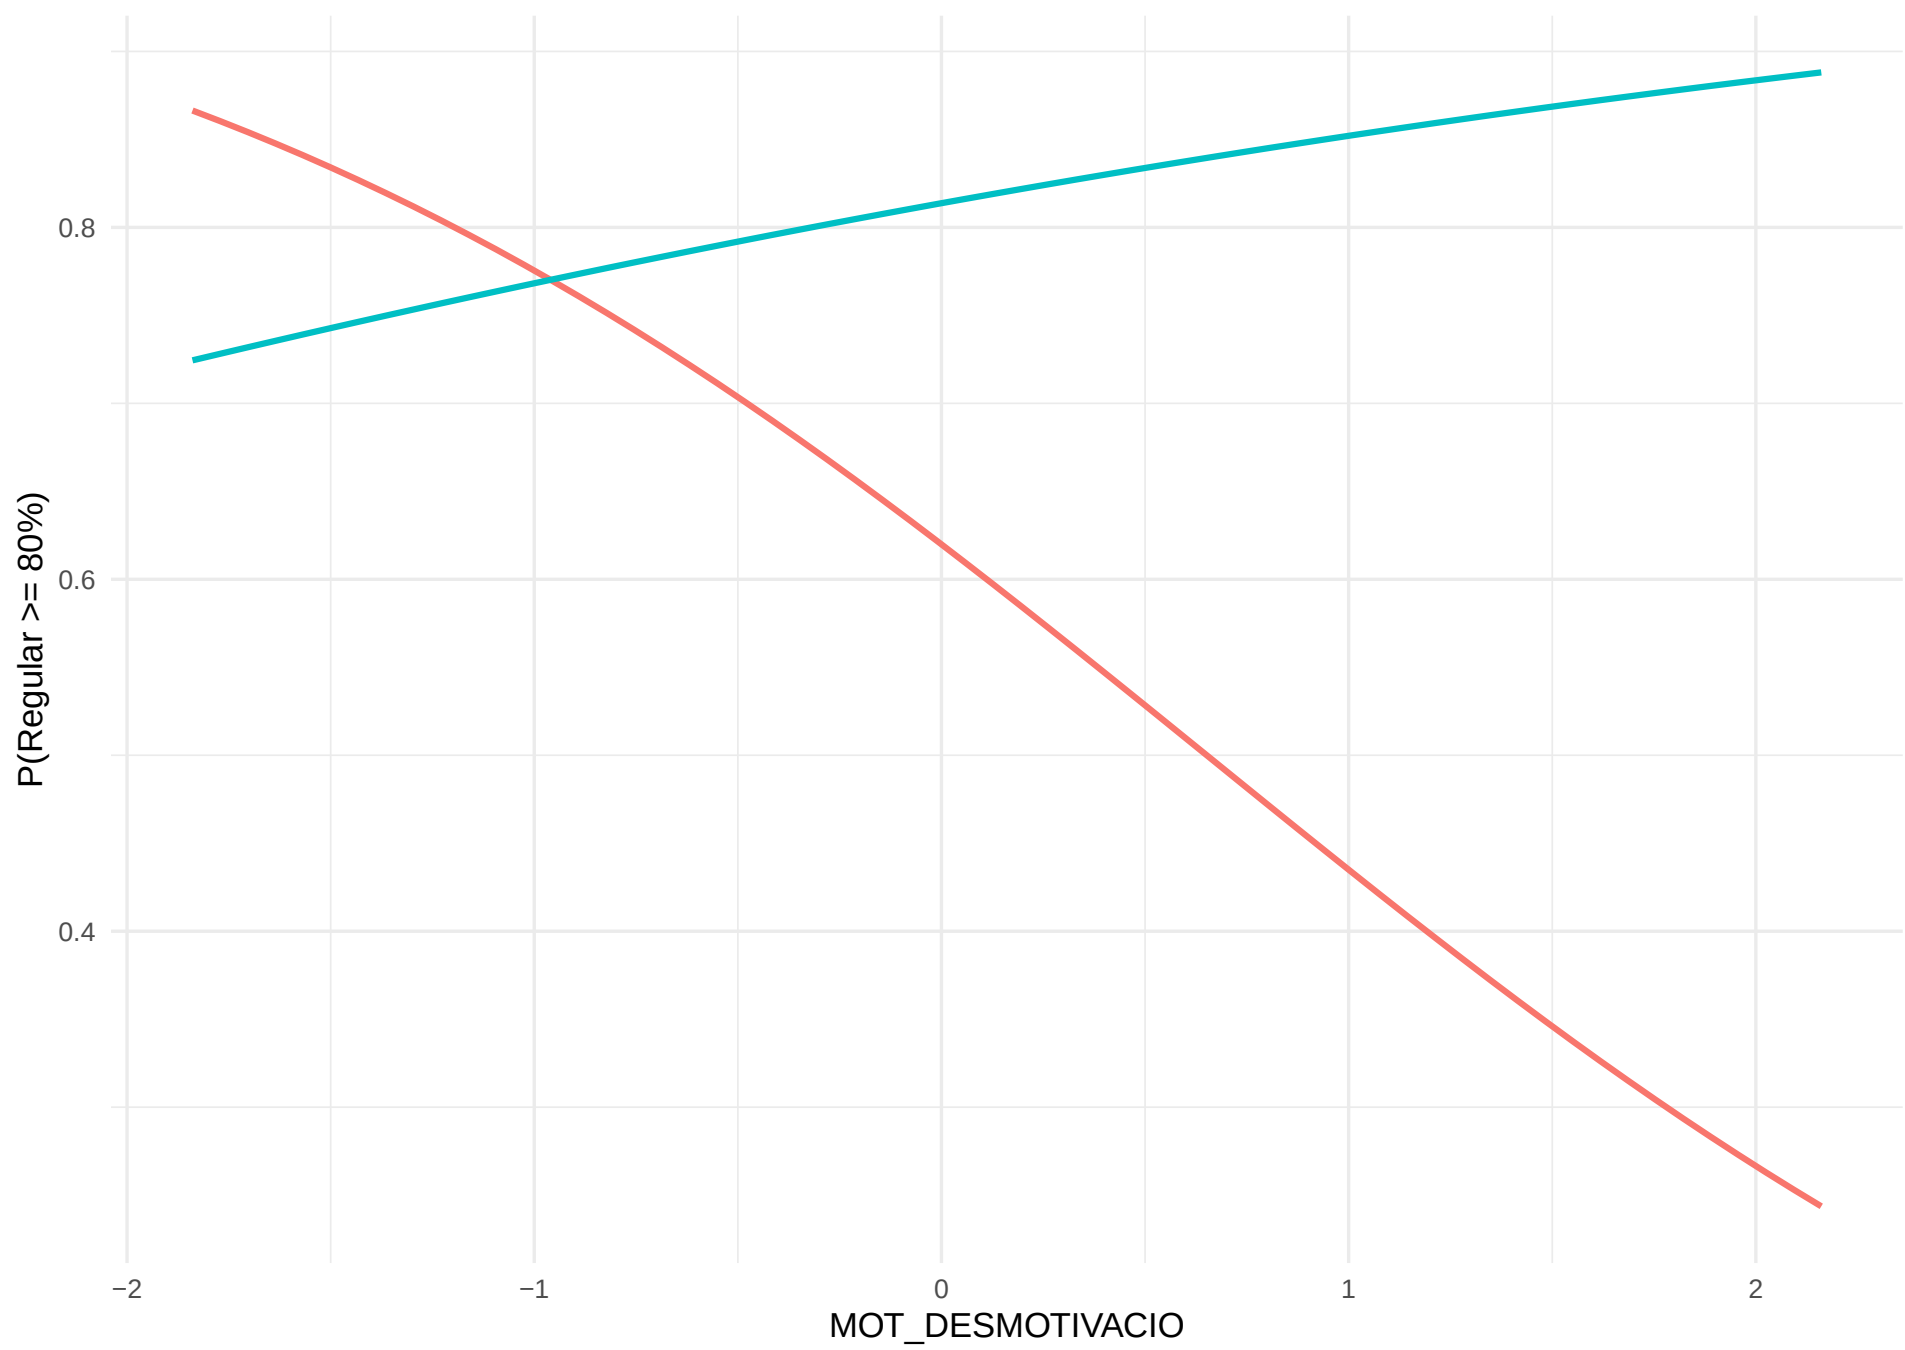

Efecte de MOT_DESMOTIVACIO sobre P(Regular)

Resta de predictors a la mediana

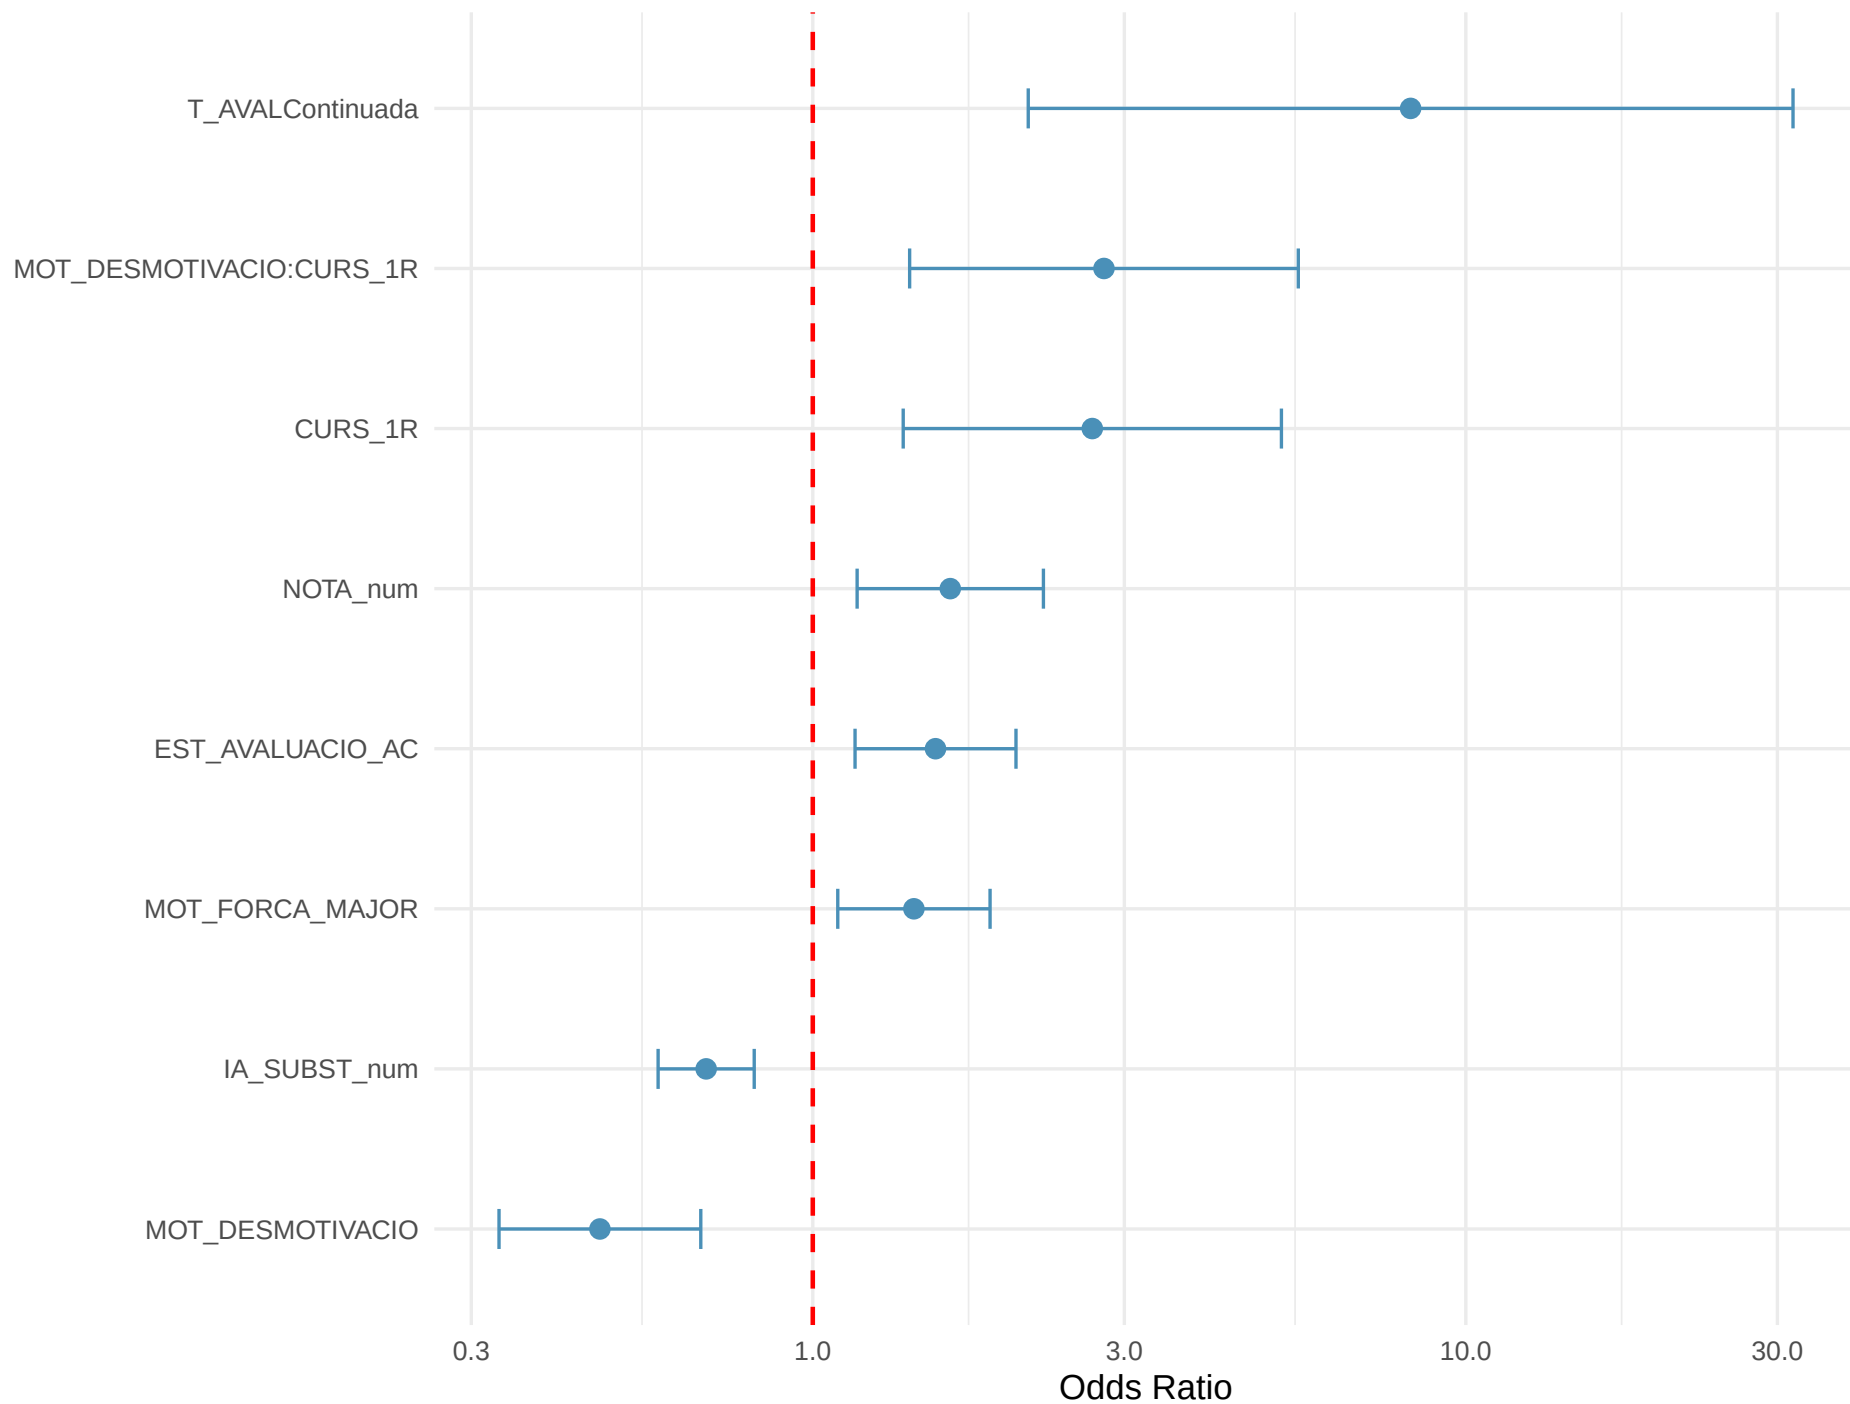

Interaccio MOT_DESMOTIVACIO:CURS_1R

CURS_1R 0 1

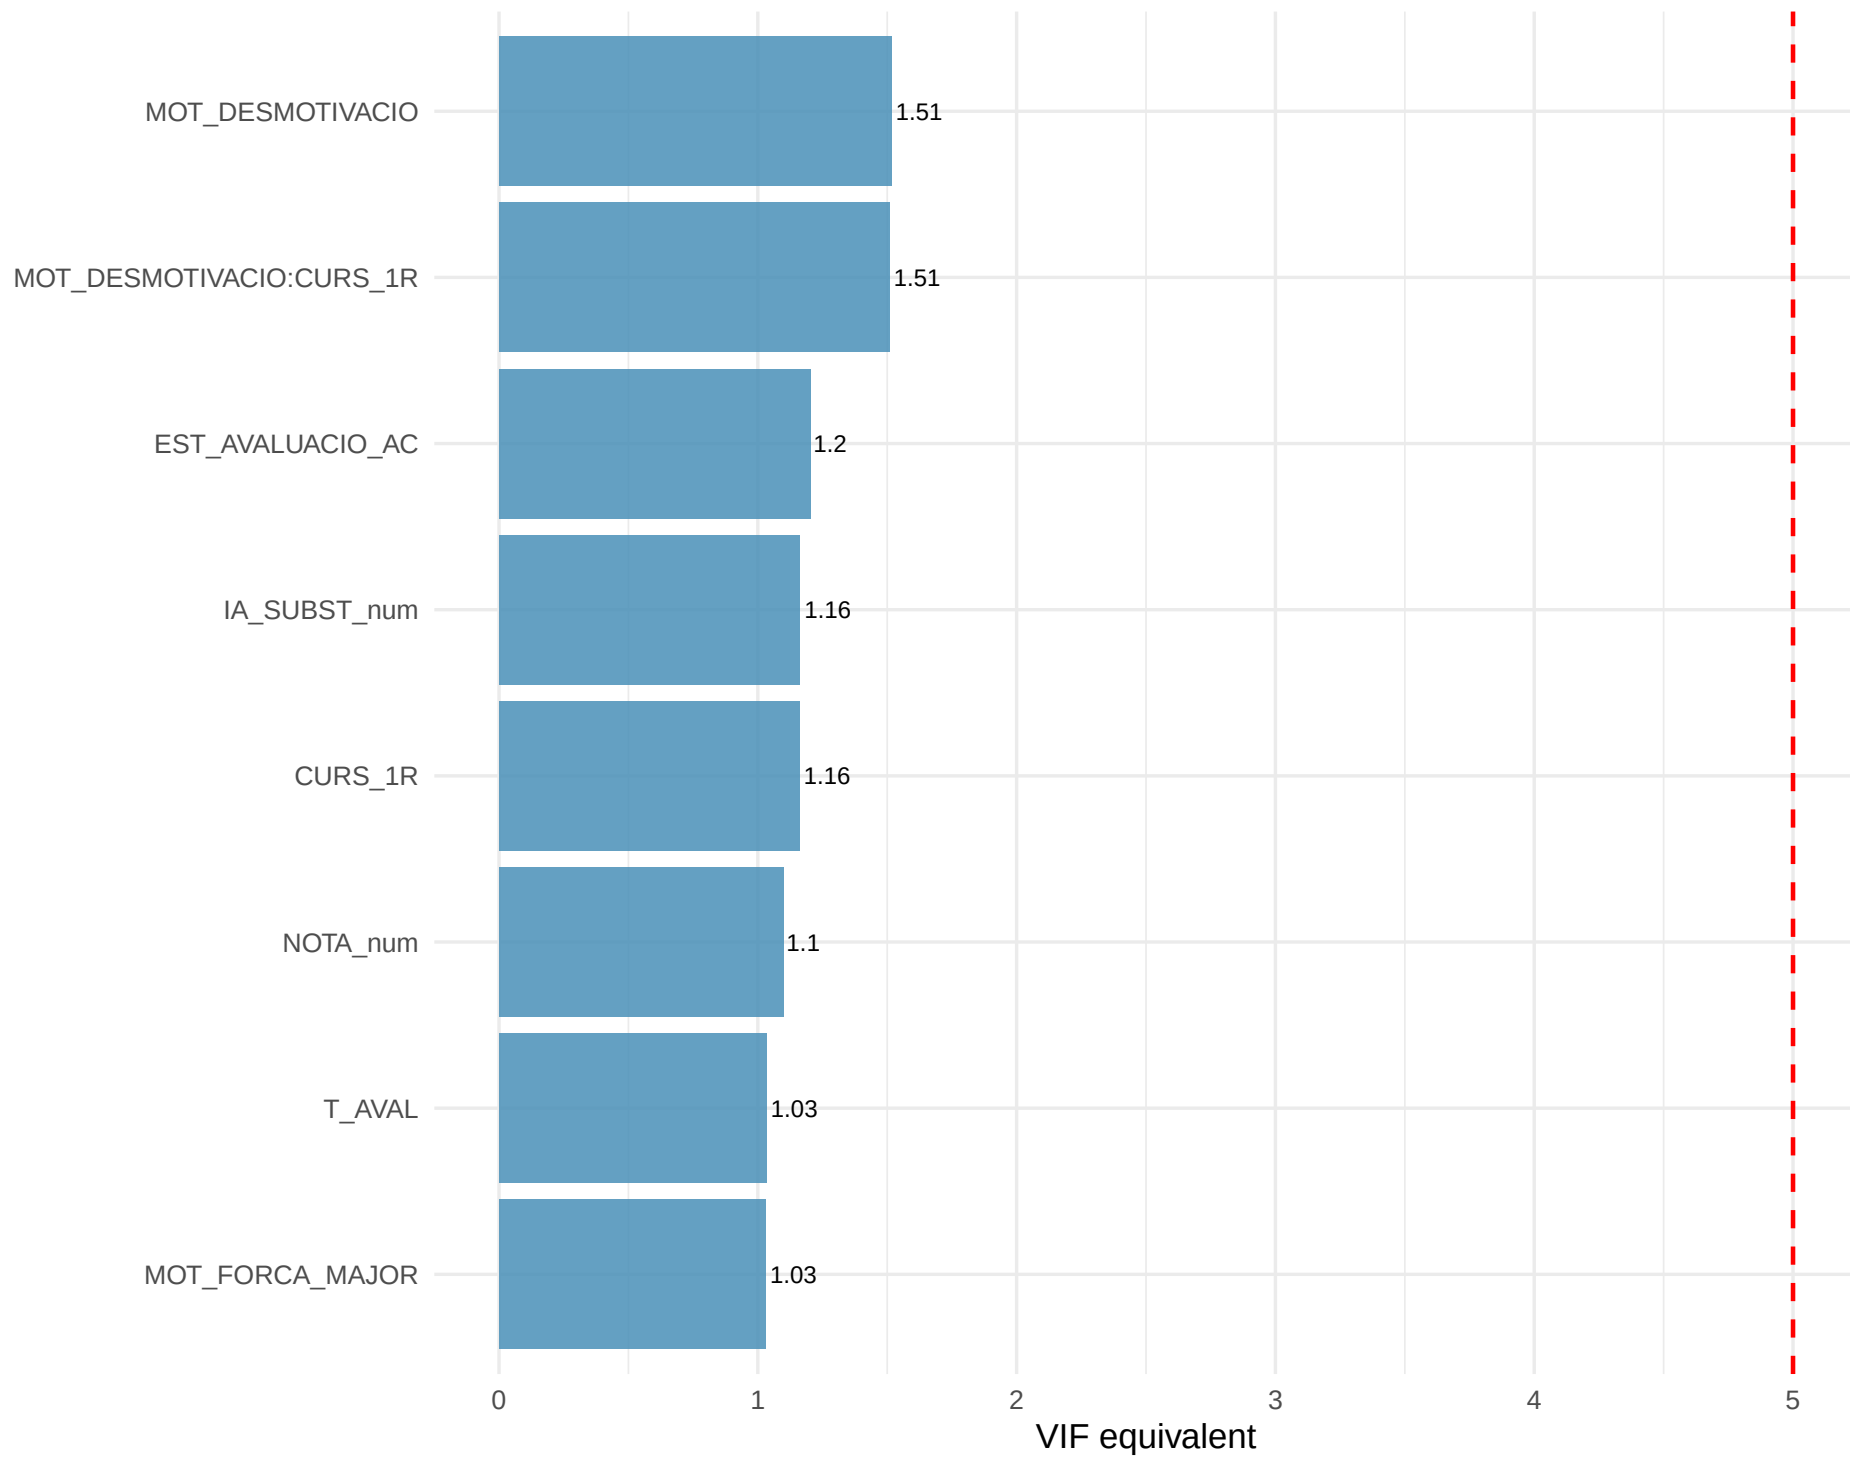

Odds Ratios – Model logistic final explicatiu

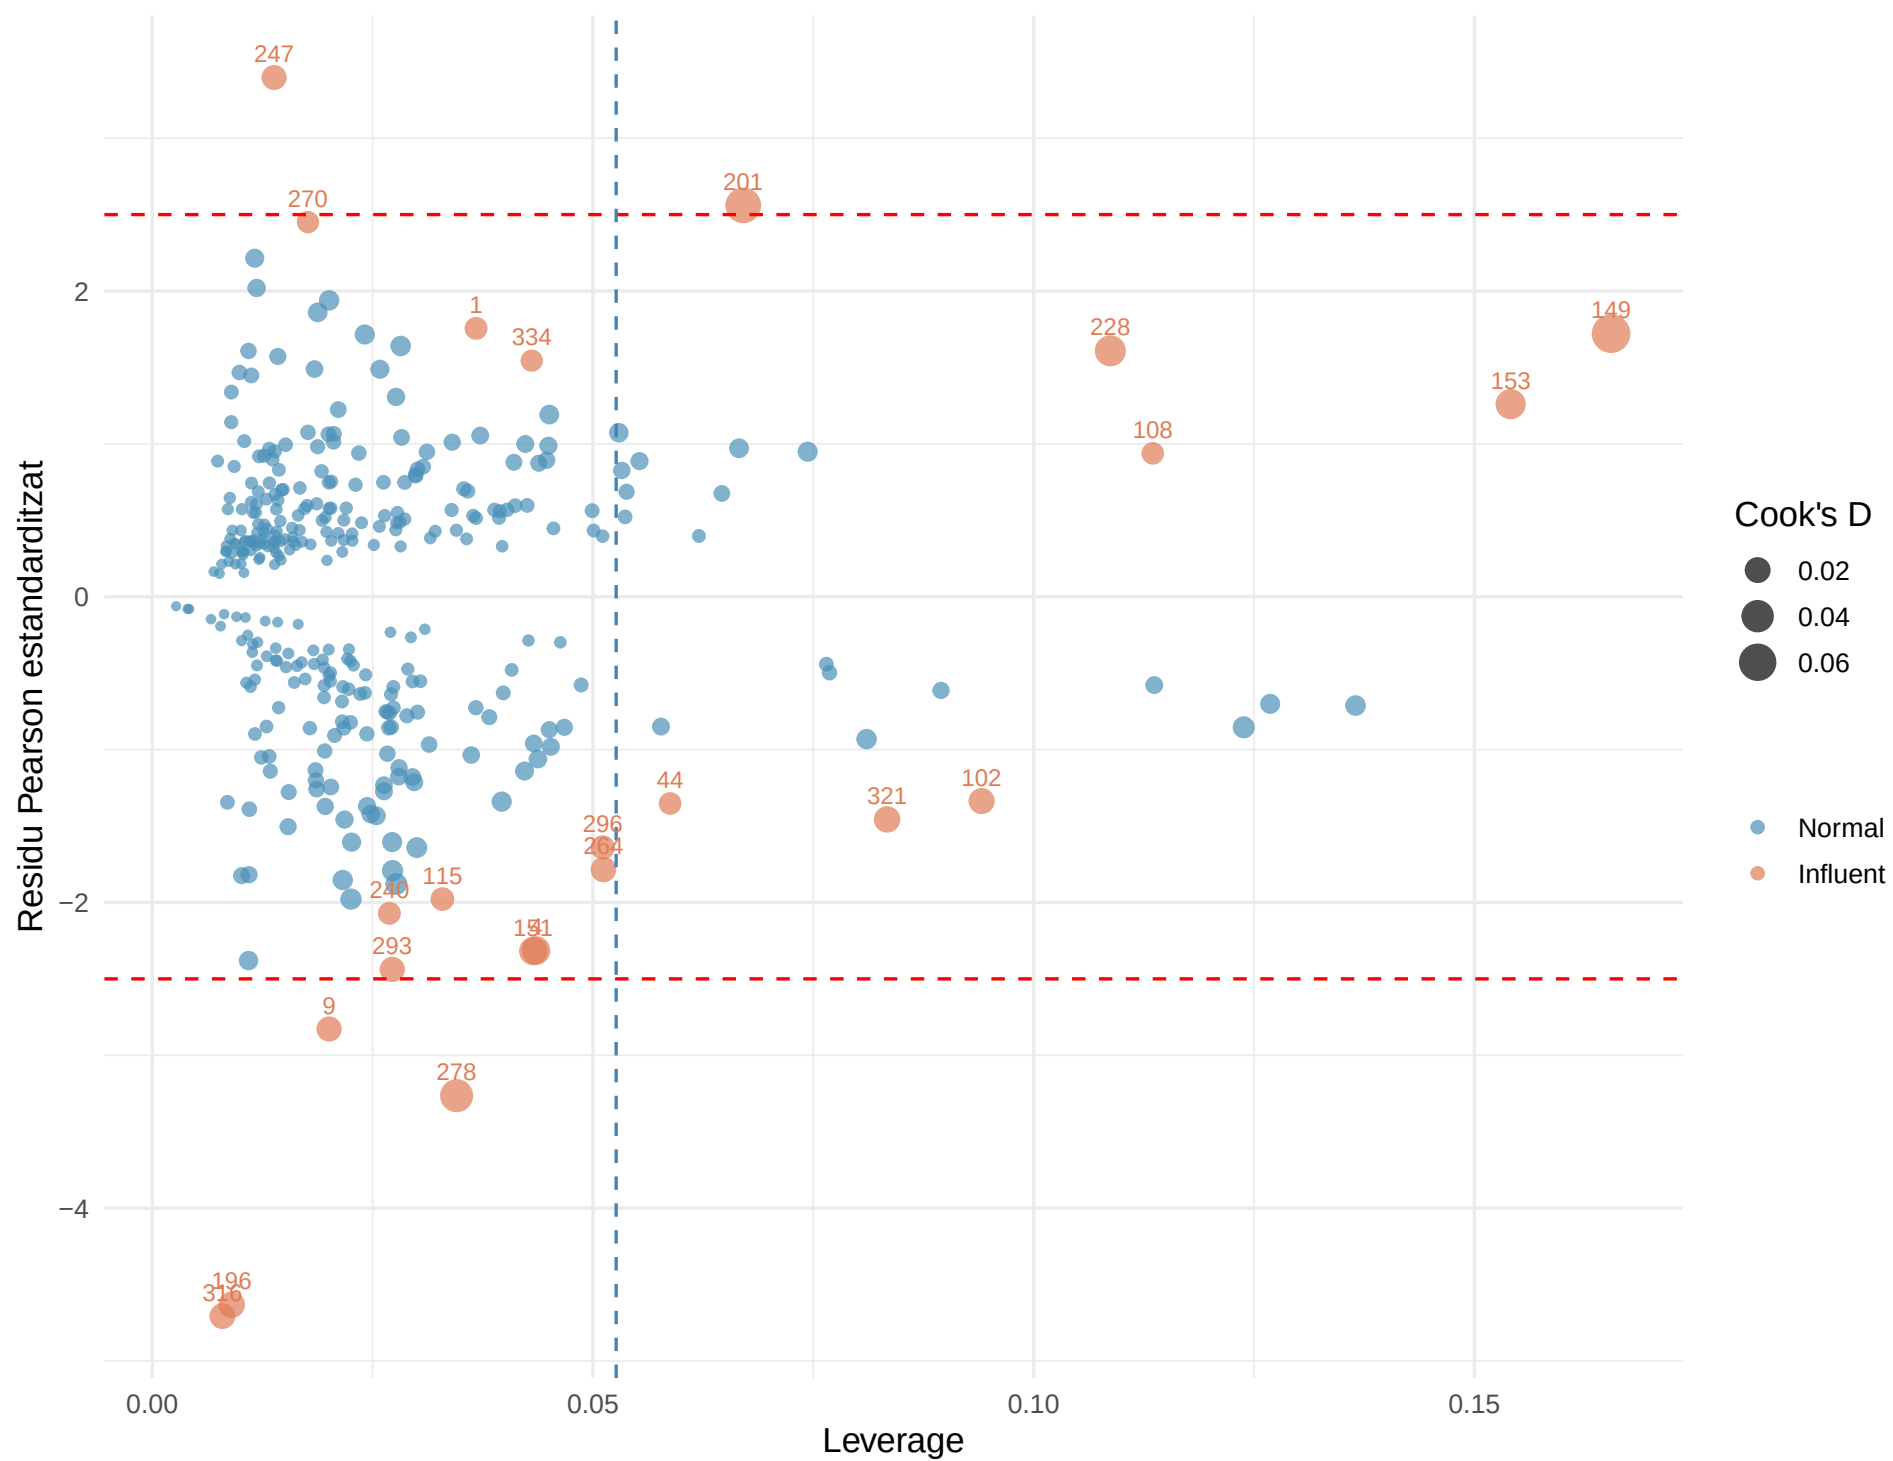

IC 95% Wald | Escala logaritmica

Factor d'Inflacio de la Variancia (FIV)

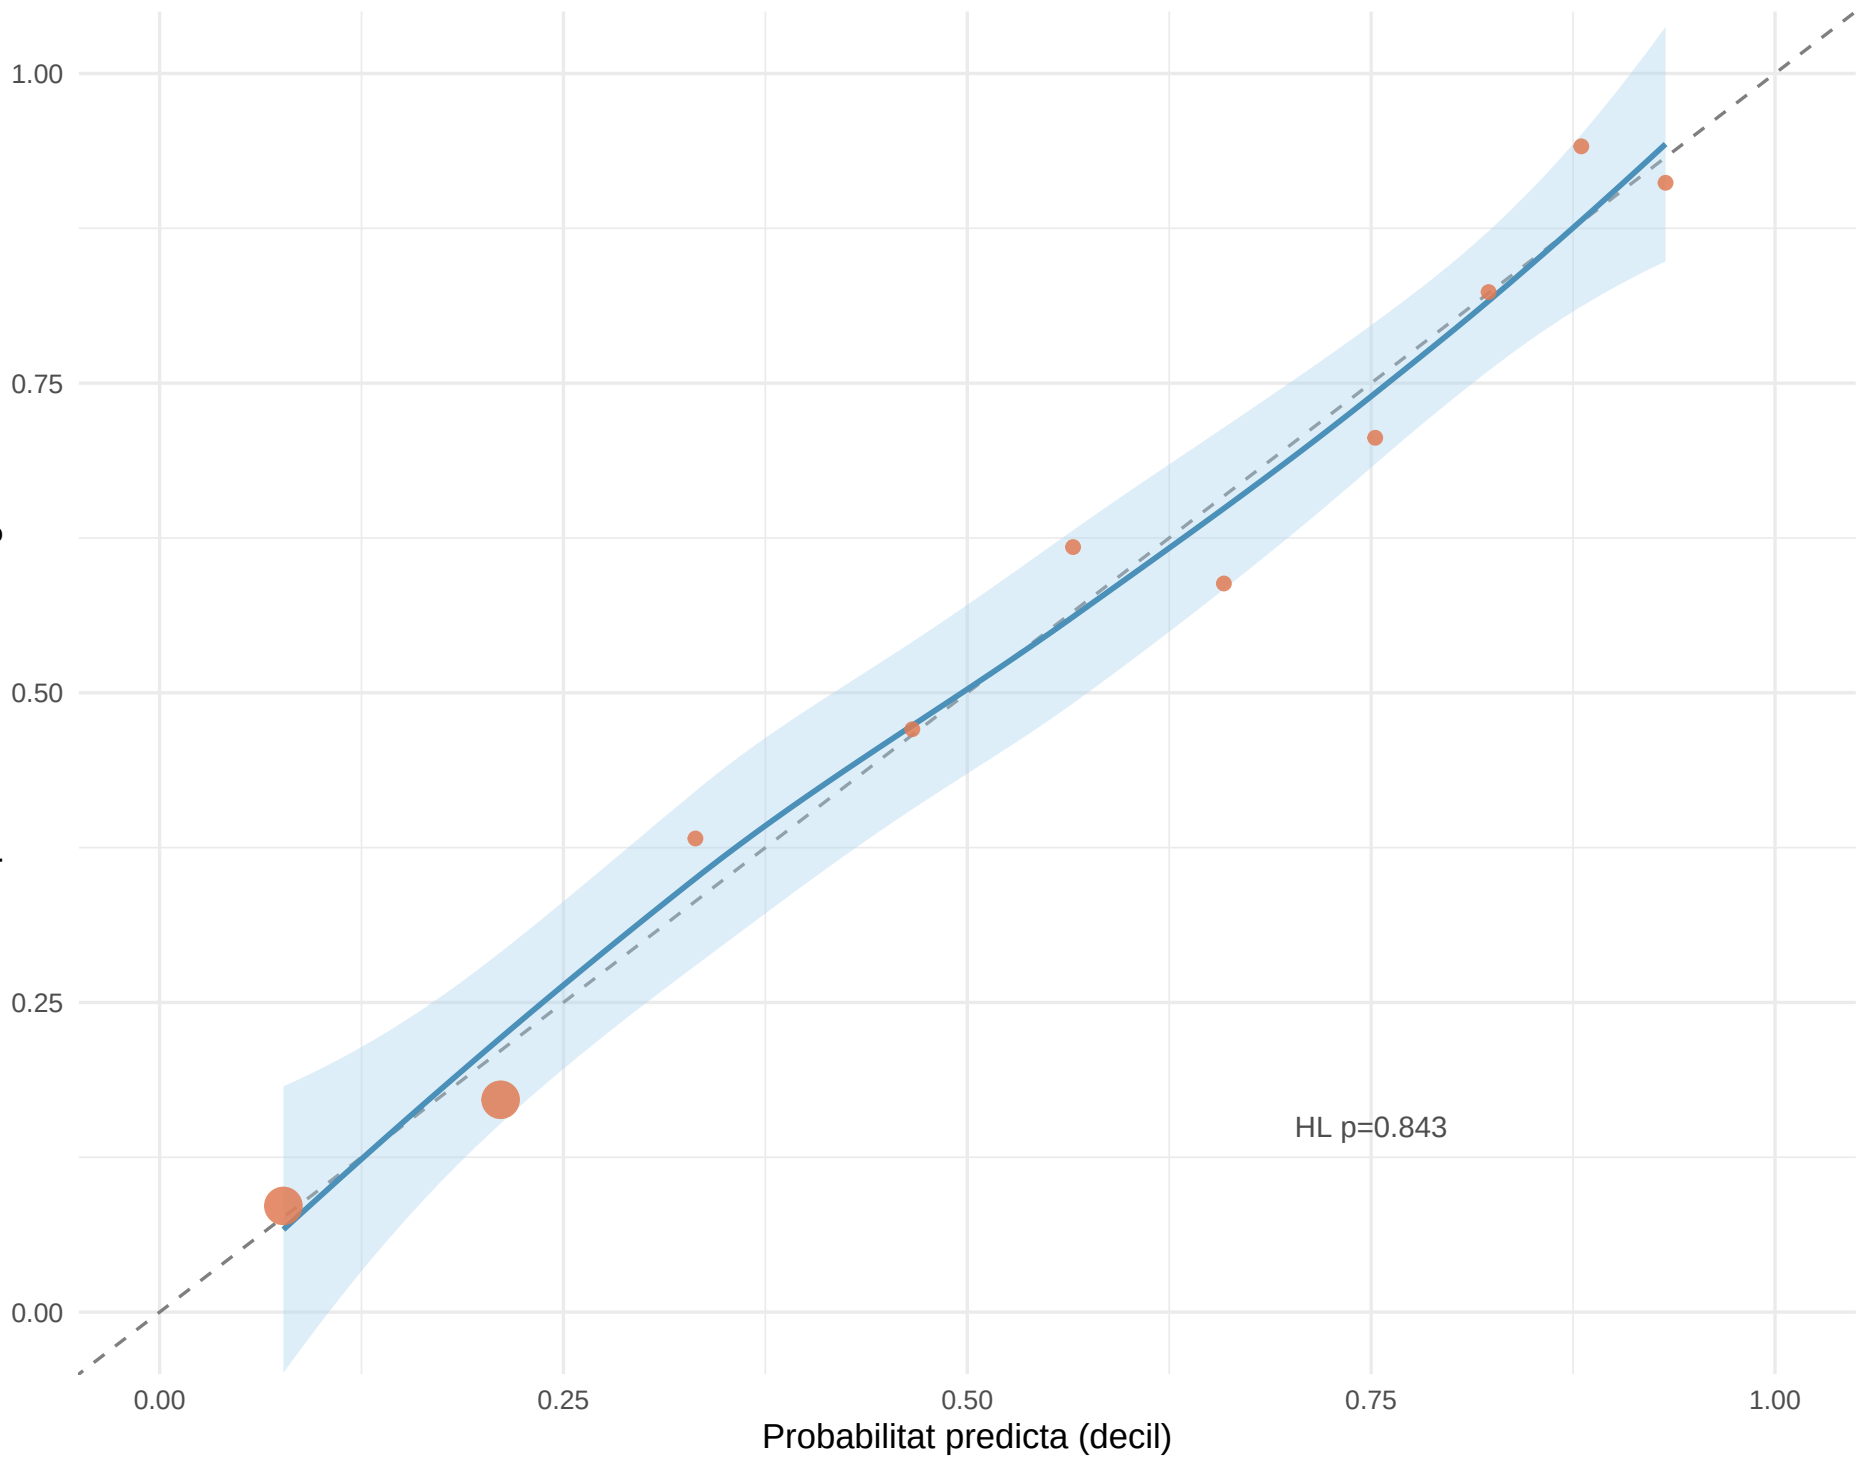

Leverage vs Residus de Pearson estandarditzats

Calibration plot – Model logistic final (totes les dades)

Proporció observada Regular

Efectes Marginals Promig (AME) – Model logistic final

IC 95% (delta method) | variable resposta: P(Regular >= 80%)
